University: Place and Topic

Arnhem University of Natural Science

Master of Science:
- Biology
  - Microbiology
  - Animal breeding
- Agricultural Studies
  - Production
  - Waste management
Arnhem: Points of Interest

- **Zoo and Safari**
  - Rich variety of animals
  - Realistic living environments

- **Museum**
  - Historical and cultural attractions
  - Outdoor activities

- **Park**
  - Original biotopes
  - Water supply
Welcome Activities: 4 Days – 4 Activities – 4 Continents

- Teams will be named after an animal.
- Interactive activities are spread all over the points of interest in the city and the university.
- Each team will consist of 20 international students.
- Animals from 4 continents
  - Europe: 3
  - Asia: 3
  - Africa: 2
  - America: 2
- Animals and countries will be paired with metaphors based on their origins.
Welcome Activities: International, Interactive, Interdisciplinary

Activity 1

Explore the culture
• Visit to points of interest.
• Learn about the city’s history.
• City walk to historical places and monuments.

Activity 2

Food for thought
• Lectures on animal food.
• Discussion about different food types across cultures.
• Different restaurants in the city.

Easy access with QR Code
Welcome Activities: International, Interactive, Interdisciplinary

**Activity 3**

*People and Habits*

- Lectures on animal behavior.
- Team games, to get to know the team members and their countries.
- Live the ‘Dutch way’ for a day.

**Activity 4**

*Places you will need*

- Information about animal’s healthcare and essential needs.
- State the missing places and things.
- Note the hospitals, pharmacies and similar emergency points.
Introduction of a guide for the Welcome Week

“Survival Compass”

- Rotating structure
- 4 circular zones representing 4 daily periods
- 4 quarters showing the days
- 4 colors to indicate different activities
- 1 arrow to point at your unique program
- Dual sided: Empty slots to put your favorites afterwards!
Summary and Conclusions:

- Key places of Arnhem have been recognised.
- University’s name, location and Master course is defined.
- Integration activities have been created and developed.
- A new supportive guidance product has been introduced.
- Easy access to places, maps and routes.
- Also, extensive use of the compass during their studies.
