Definition of **SUSTAINABILITY**

- In general terms, sustainability is the endurance of systems and processes. The organizing principle for sustainability is sustainable development, which includes the four interconnected domains: **ECOLOGY**, **ECONOMICS**, **POLITICS** and **CULTURE**. **Sustainability science** is the study of sustainable development and environmental science.
What is **SUSTAINABILITY** to you???
• green system
• water management
• recycling
• energy efficient buildings
• green system
• water management
• recycling
• energy efficient buildings

• LEARN good things of other countries
• EDUCATION
• NOT HURTING each other
