• Story has 6 parts in different languages
• Successive parts of the story obtained in respective locations on successive days
• Complete story enacted on the final day
• Evaluated based on the number of domains covered
WHY CUBE?

• An economical but effective way to acculturate.
• Old-fashioned; take a leaf out of the past.
• Reduce the time we spend with the so called inevitable electronics.
• Emphasis on teamwork.
• Innovative and interesting means of engaging people in an activity.
