

VNTR in the DLGAP2 gene
with repeating motif GGGATGGGGGGCTCTGCGGT (20)

Supplementary Figure 2a: The excluded VNTR in the DLGAP2 gene due to insufficient separation between cases and controls.

VNTR in the GALNT17 gene
with repeating motif CCTCCCTCCCTCTCTCTT (20)

Supplementary Figure 2b: The excluded VNTR in the GALNT17 gene due to insufficient separation between cases and controls.
