Hoe maak je van hybride werken een succes?

Column Ben Tiggelaar

3 februari 2023 Leestijd 2 minuten

Na corona verdubbelde het aantal mensen dat regelmatig thuiswerkte. Maar het afgelopen halfjaar trokken veel mensen weer naar kantoor, onder meer door de hoge energieprijzen. Vooral kenniswerkers willen graag hybride werken: deels op kantoor, deels thuis. De praktische invulling hiervan is echter nog niet zo eenvoudig.

Wouter Smit is onderzoeker aan de Hogeschool van Amsterdam. In een artikel voor *Holland Management Review* zette hij samen met collega Noa Cremers op een rijtje wat er nodig is om van hybride werken een succes te maken. Dit zijn hun belangrijkste adviezen:

Hybride werken en leiderschap: Zo pakken deze bedrijven het aan

Nu corona grotendeels achter de rug lijkt, is duidelijk hoe de crisis ons werk heeft veranderd. Een van de belangrijkste veranderingen is dat meer mensen thuis blijven werken – in elk geval een deel van de tijd. Wat betekent dat voor de rol van leidinggevend?

Marianne Lucleer - redactie Intermediair 25-05-22, 15:30

Succesvol hybride werken en mentale gezondheid

‘Het kantoor is een fitnessruimte voor de geest’

Welk effect heeft hybride werken (deels op kantoor, deels thuis) op het welzijn van mensen? En wie draagt verantwoordelijkheid ervoor: de leidinggevende, de medewerker of beiden? Leiderschapstrainer en auteur Remco Claassen gaat in gesprek met dr. Kilian Wawoe, organisatiepsycholoog en docent aan de Vrije Universiteit Amsterdam.

De juiste focusbubbel

‘Denk nu al na over de toekomst van hybride werken’

Thuiswerken of naar kantoor: hoe zorg je als werkgever voor een goede balans en waarborg je daarmee ook op de lange termijn de bedrijfscontinuïteit? Psycholoog en focus-expert Mark Tigchelaar over de kansen en uitdagingen van het hybride werken.

„Van medewerkers verwachten dat ze acht uur op hun werkplek zitten en daar bijna onafgebroken productief zijn, is niet realistisch. Dat is ook niet meer van deze tijd”, vindt Tigchelaar. „Ja, in een fabriek kan dat misschien, maar wie veel denkwerk doet, kan niet de hele dag door volledig geconcentreerd aan het werk blijven. Heel goed dus om als ondernemer werknemers nu en in de toekomst vaker de mogelijkheid te geven om thuis te werken. Ze hebben daar meer vrijheid om hun tijd in te delen en kunnen dus zelf kiezen wat een goede tijd is om gefocust aan een klus te werken die wat meer aandacht vergt.”

‘Hybride werken’? Geef iedereen een eigen stiltecel op kantoor!

Japke-d. denkt mee Overal in het land experimenteren werkgevers met het ‘hybride werken’. Kantoren worden verbouwd om ‘thuis’ en ‘werk’ beter te kunnen combineren. Japke-d. Bouma ziet een hoopvolle trend: de stiltecel.

Thuiswerken is een blijvertje, maar de baas trekt wel een grens

Werkafspraken Door corona is thuiswerken gangbaarder geworden, maar wereldwijd willen werknemers dat vaker dan de baas lief is. Grote werkgevers in Nederland laten hun personeel bij voorkeur teamsgewijs regelen wie wanneer op kantoor is.

Continuance commitment	+		
Normative commitment			+

Purpose

Method

Results

Conclusions

Discussion

Findings...

- Only 2 / 9 possible relations found
- **Normative** and **continuance** commitment increase

		H y b r i d w o r k i n g		
		Distribution of days	Flexibility per week	Arrangements on hybrid working
O r g a n i s a t i o n a l c o m m i t m e n t	Affective commitment			
	Continuance commitment	+		
	Normative commitment			+
		Purpose	Method	

Findings...

- Only 2 / 9 possible relations found
- **Normative** and **continuance** commitment increase

Minor relationship between hybrid working and organisational commitment

2

Deep dive

Separation

?

Organisational
commitment

2

Deep dive

Physical proximity

Organisational commitment

	Purpose	Method
Affective commitment	Sharing of the same space	Physical meetings
Continuance commitment		
Normative commitment		+

Findings...

- Only 1 / 6 possible relations found
- **Normative** commitment increase

Physical proximity

Organisational commitment

	Purpose	Method
Sharing of the same space		
Physical meetings		
Affective commitment		
Continuance commitment		
Normative commitment		+

Findings...

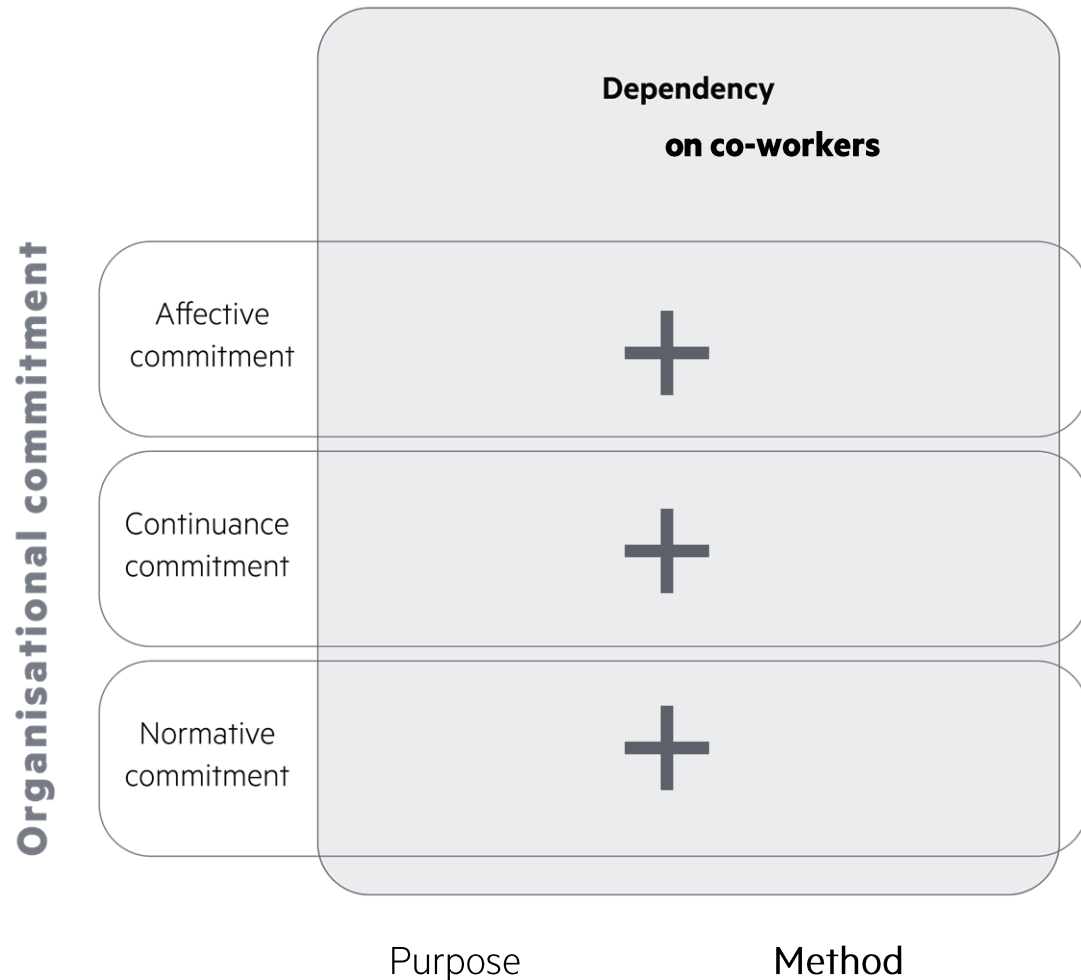

- Only 1 / 6 possible relations found
- **Normative** commitment increase

It seems that normative commitment increases when more physical meetings are attended

2

Deep dive

D e p e n d e n c y

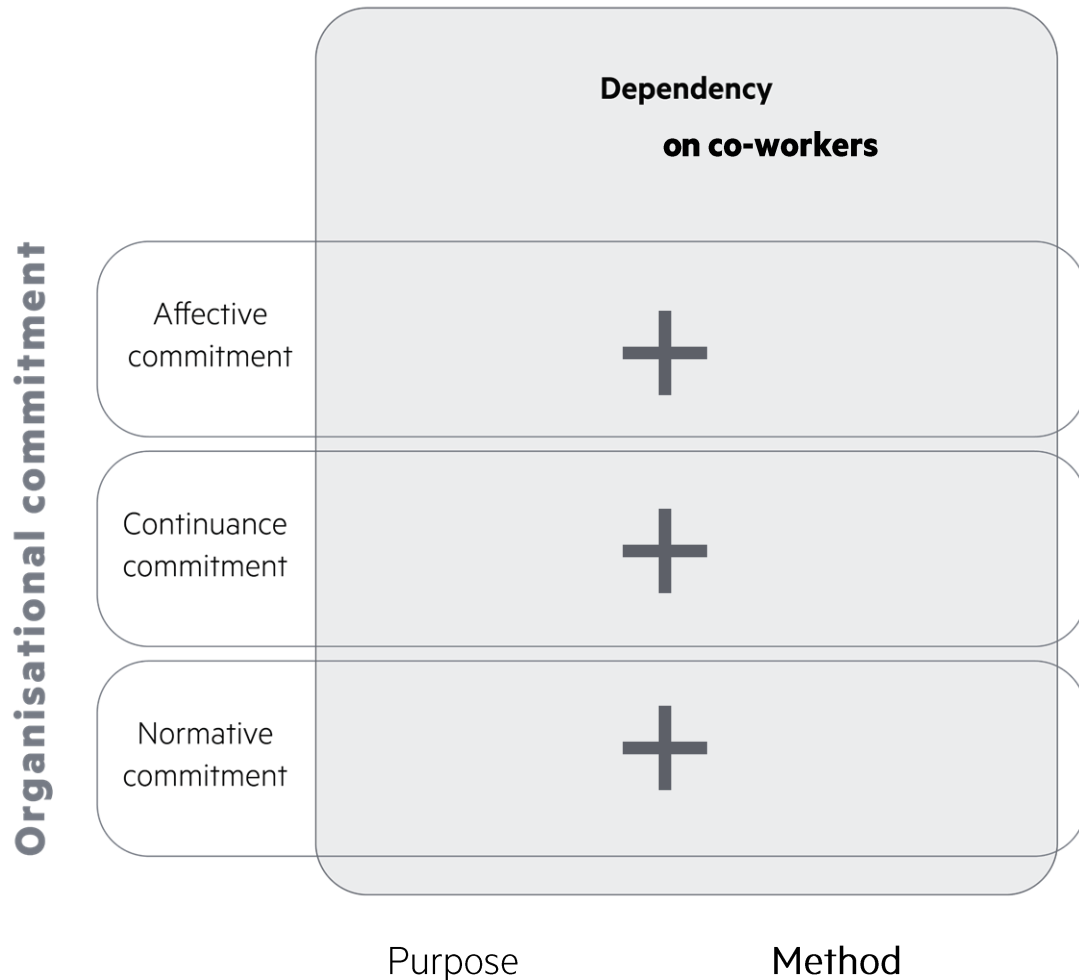

Findings...

- 3 / 3 possible relations found
- Organisational commitment increases

2

Deep dive

D e p e n d e n c y

Findings...

- 3 / 3 possible relations found
- Organisational commitment increases

It seems that dependency is important for organisational commitment

3

Control variables

Socio-demographic
factors

?

Organisational
commitment

3

Control variables

Socio-demographic factors

	Age	Tenure	Function	Department
Affective commitment	+	+		
Continuance commitment	+	+		
Normative commitment	+	+		

Purpose Method **Results**

Findings...

- 6 / 6 possible relations found
- Organisational commitment increases

3

Control variables

Socio-demographic factors

	Age	Tenure	Function	Department
Affective commitment	+	+		
Continuance commitment	+	+		
Normative commitment	+	+		

Purpose Method **Results**

Findings...

- 6 / 6 possible relations found
- Organisational commitment increases

Age and tenure have a positive relationship with commitment

3

Control variables

Socio-demographic factors

	Age	Tenure	Function	Department
Affective commitment				
Continuance commitment			+	
Normative commitment				

Purpose Method **Results**

Findings...

- 1 / 3 possible relations found
- Continuance commitment increases

Managers show a higher continuance commitment

3

Control variables

Socio-demographic factors

Organisational commitment

	Purpose	Method	Results
	Department		
Affective commitment			<ul style="list-style-type: none">• Wholesale strongest• Business to consumer (B2C) weakest
Continuance commitment			<ul style="list-style-type: none">• Business to consumer (B2C) strongest• Business to business (B2B) weakest
Normative commitment			

Findings...

- 2 / 3 possible relations found

For young professionals, the results are the same..

CONCLUSION | CHALLENGE 1

1

**WHAT IS THE INFLUENCE OF HYBRID WORKING
ON THE ORGANISATIONAL COMMITMENT OF
EMPLOYEES OF ORGANISATION X?**

Preliminary conclusions I

- ✓ Minor relation (effect) of hybrid working on organisational commitment

Preliminary conclusions I

- ✓ Minor relation (effect) of hybrid working on organisational commitment
- ✓ Attendance of physical meetings and dependency on co-workers show a positive effect

Preliminary conclusions I

- ✓ Minor relation (effect) of hybrid working on organisational commitment
- ✓ Attendance of physical meetings and dependency on co-workers show a positive effect
- ✓ Increasing age and tenure leads to increase of organisational commitment

Preliminary conclusions I

- ✓ Minor relation (effect) of hybrid working on organisational commitment
- ✓ Attendance of physical meetings and dependency on co-workers show a positive effect
- ✓ Increasing age and tenure leads to increase of organisational commitment
- ✓ Managers show higher continuance commitment

Preliminary conclusions I

- ✓ Minor relation (effect) of hybrid working on organisational commitment
- ✓ Attendance of physical meetings and dependency on co-workers show a positive effect
- ✓ Increasing age and tenure leads to increase of organisational commitment
- ✓ Managers show higher continuance commitment
- ✓ Young professionals show no relation between hybrid working and organisational commitment

CONCLUSION | IN SUMMARY...

Overall conclusion

The sense of belonging is not affected by hybrid working

Overall conclusion

The sense of belonging is not affected by hybrid working

Required communication enhances commitment, rather than the choice of working in proximity to one another

Overall conclusion

The sense of belonging is not affected by hybrid working

Required communication enhances commitment, rather than the choice of working in proximity to one another

Separation awareness may be mitigated through tenure within the organisation

Overall conclusion

The sense of belonging is not affected by hybrid working

Required communication enhances commitment, rather than the choice of working in proximity to one another

Separation awareness may be mitigated through tenure within the organisation

Young professionals experience disadvantages when other workers working remote

Recommendations

Encourage employees to attend physical meetings
Create jobs with a collaborative nature

DISCUSSION

Discussion topics

- Assumption that survey may attract already committed employees

Discussion topics

- Assumption that survey may attract already committed employees
- Cross sectional research

Discussion topics

- Assumption that survey may attract already committed employees
- Cross sectional research
- More possible parameters for survey related to the relation between hybrid working and organisational commitment

Recommendations for further research

- Longitudinal research

Recommendations for further research

- Longitudinal research
- Qualitative deep dive into survey results

Recommendations for further research

- Longitudinal research
- Qualitative deep dive into survey results
- Repetition of focus group leads to more definite conclusions

Research implications

- Adding to our knowledge about the consequences of the popularity of hybrid working in the wake of the pandemic

Research implications

- Adding to our knowledge about the consequences of the popularity of hybrid working in the wake of the pandemic
- Advice to ORGANISATION X not to make decisions on solely on the ‘sense of belonging’

Research implications

- Adding to our knowledge about the consequences of the popularity of hybrid working in the wake of the pandemic
- Advice to ORGANISATION X not to make decisions on solely on the ‘sense of belonging’
- Other companies may repeat the research
