Show time

The ambition of the proposed design is to create a **theatre building** that functions not only as a place for **performance**, but also as an open **public space** that is capable of taking part in the everyday life of Delft.

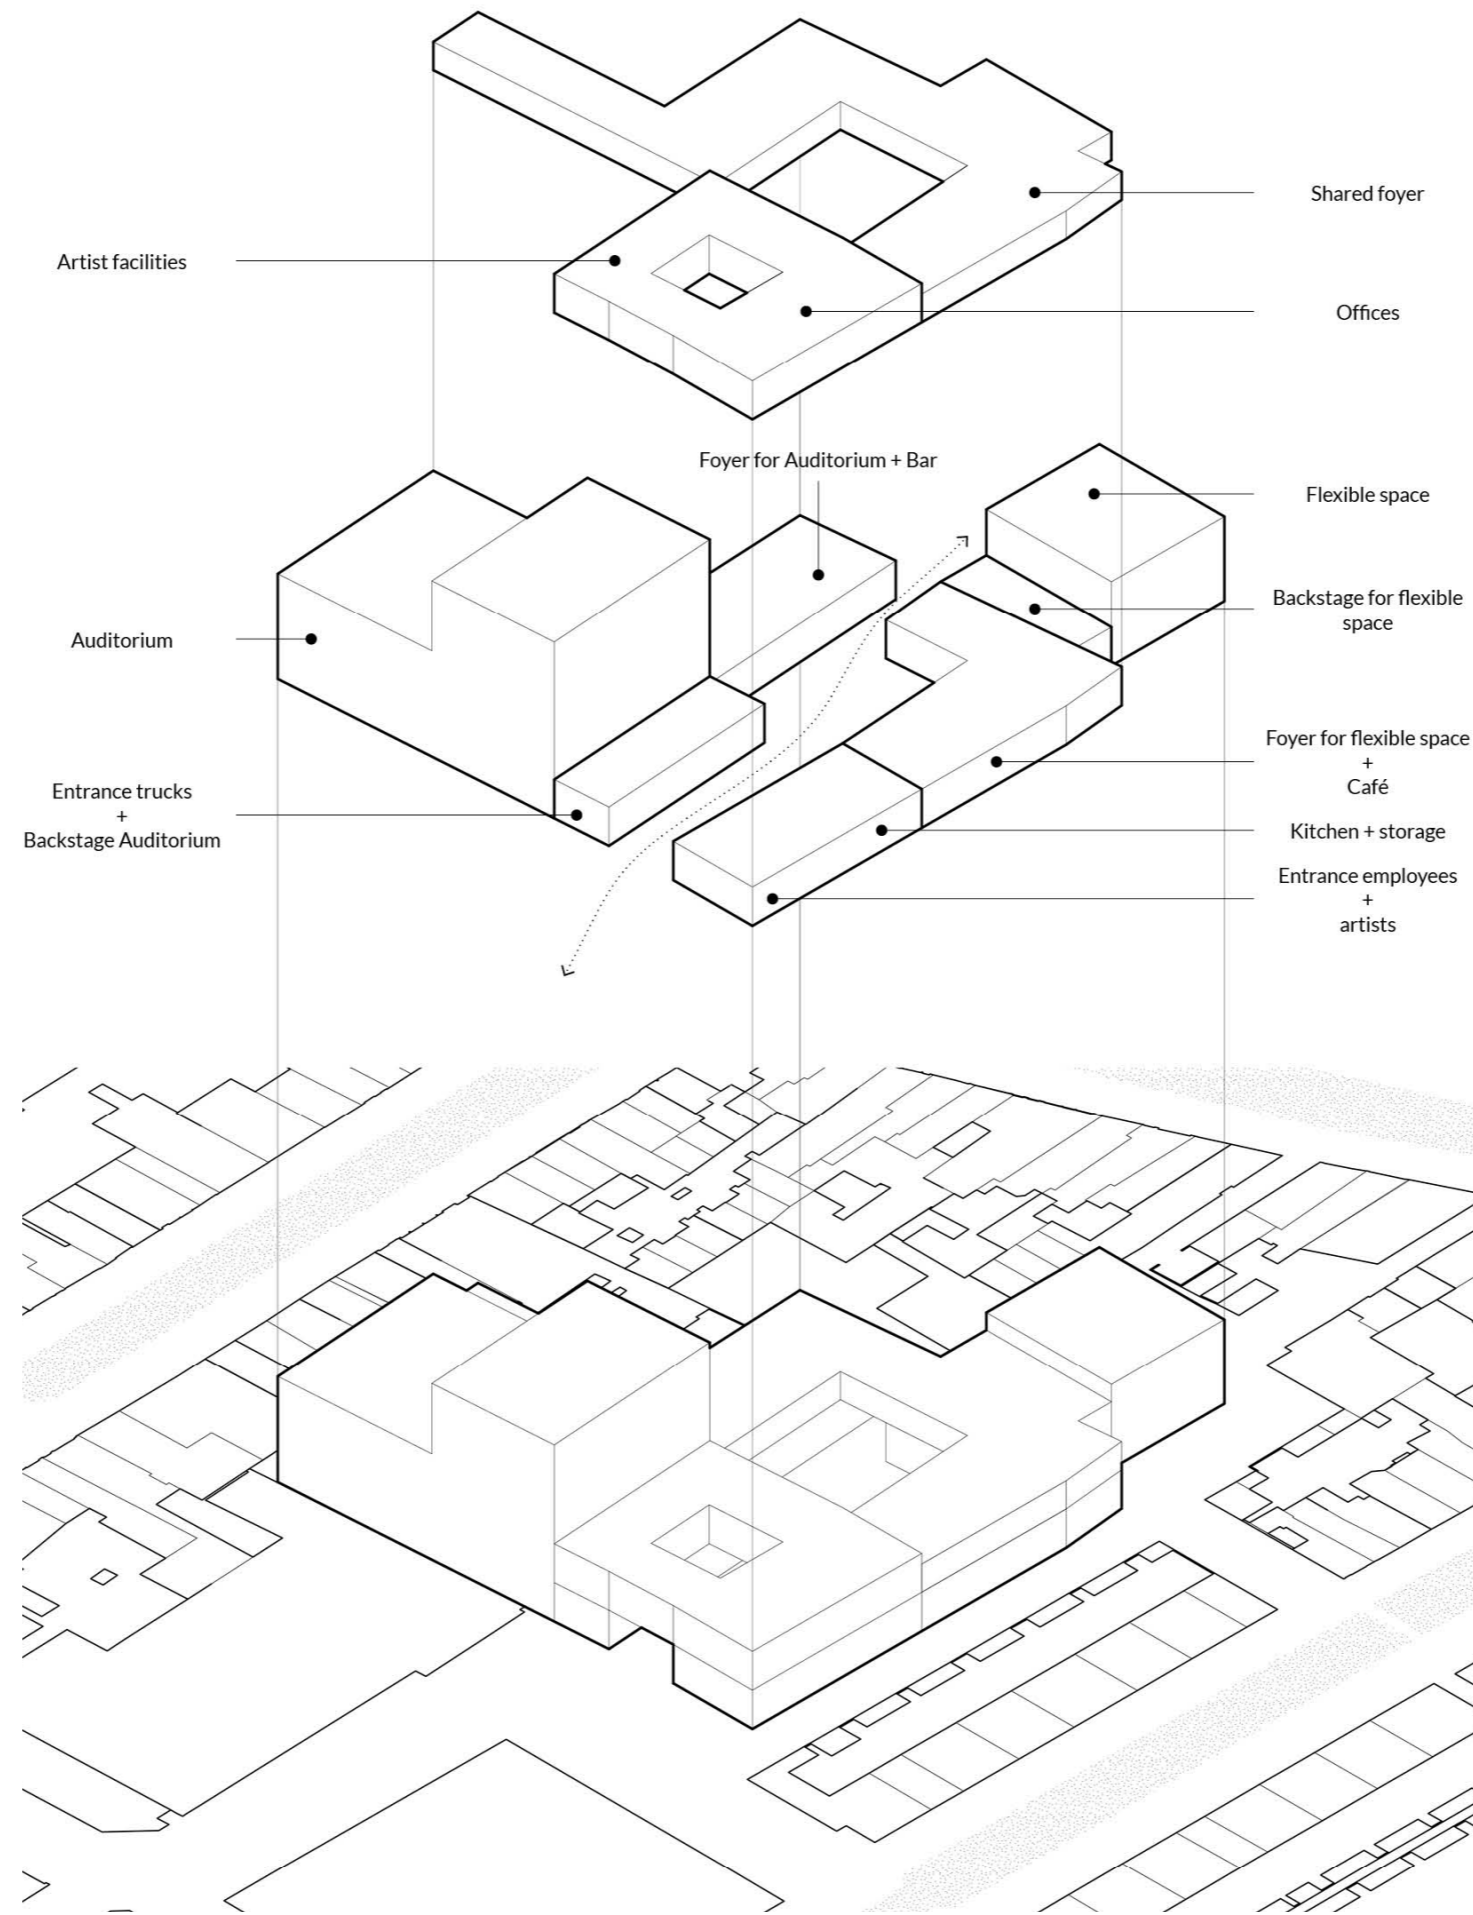

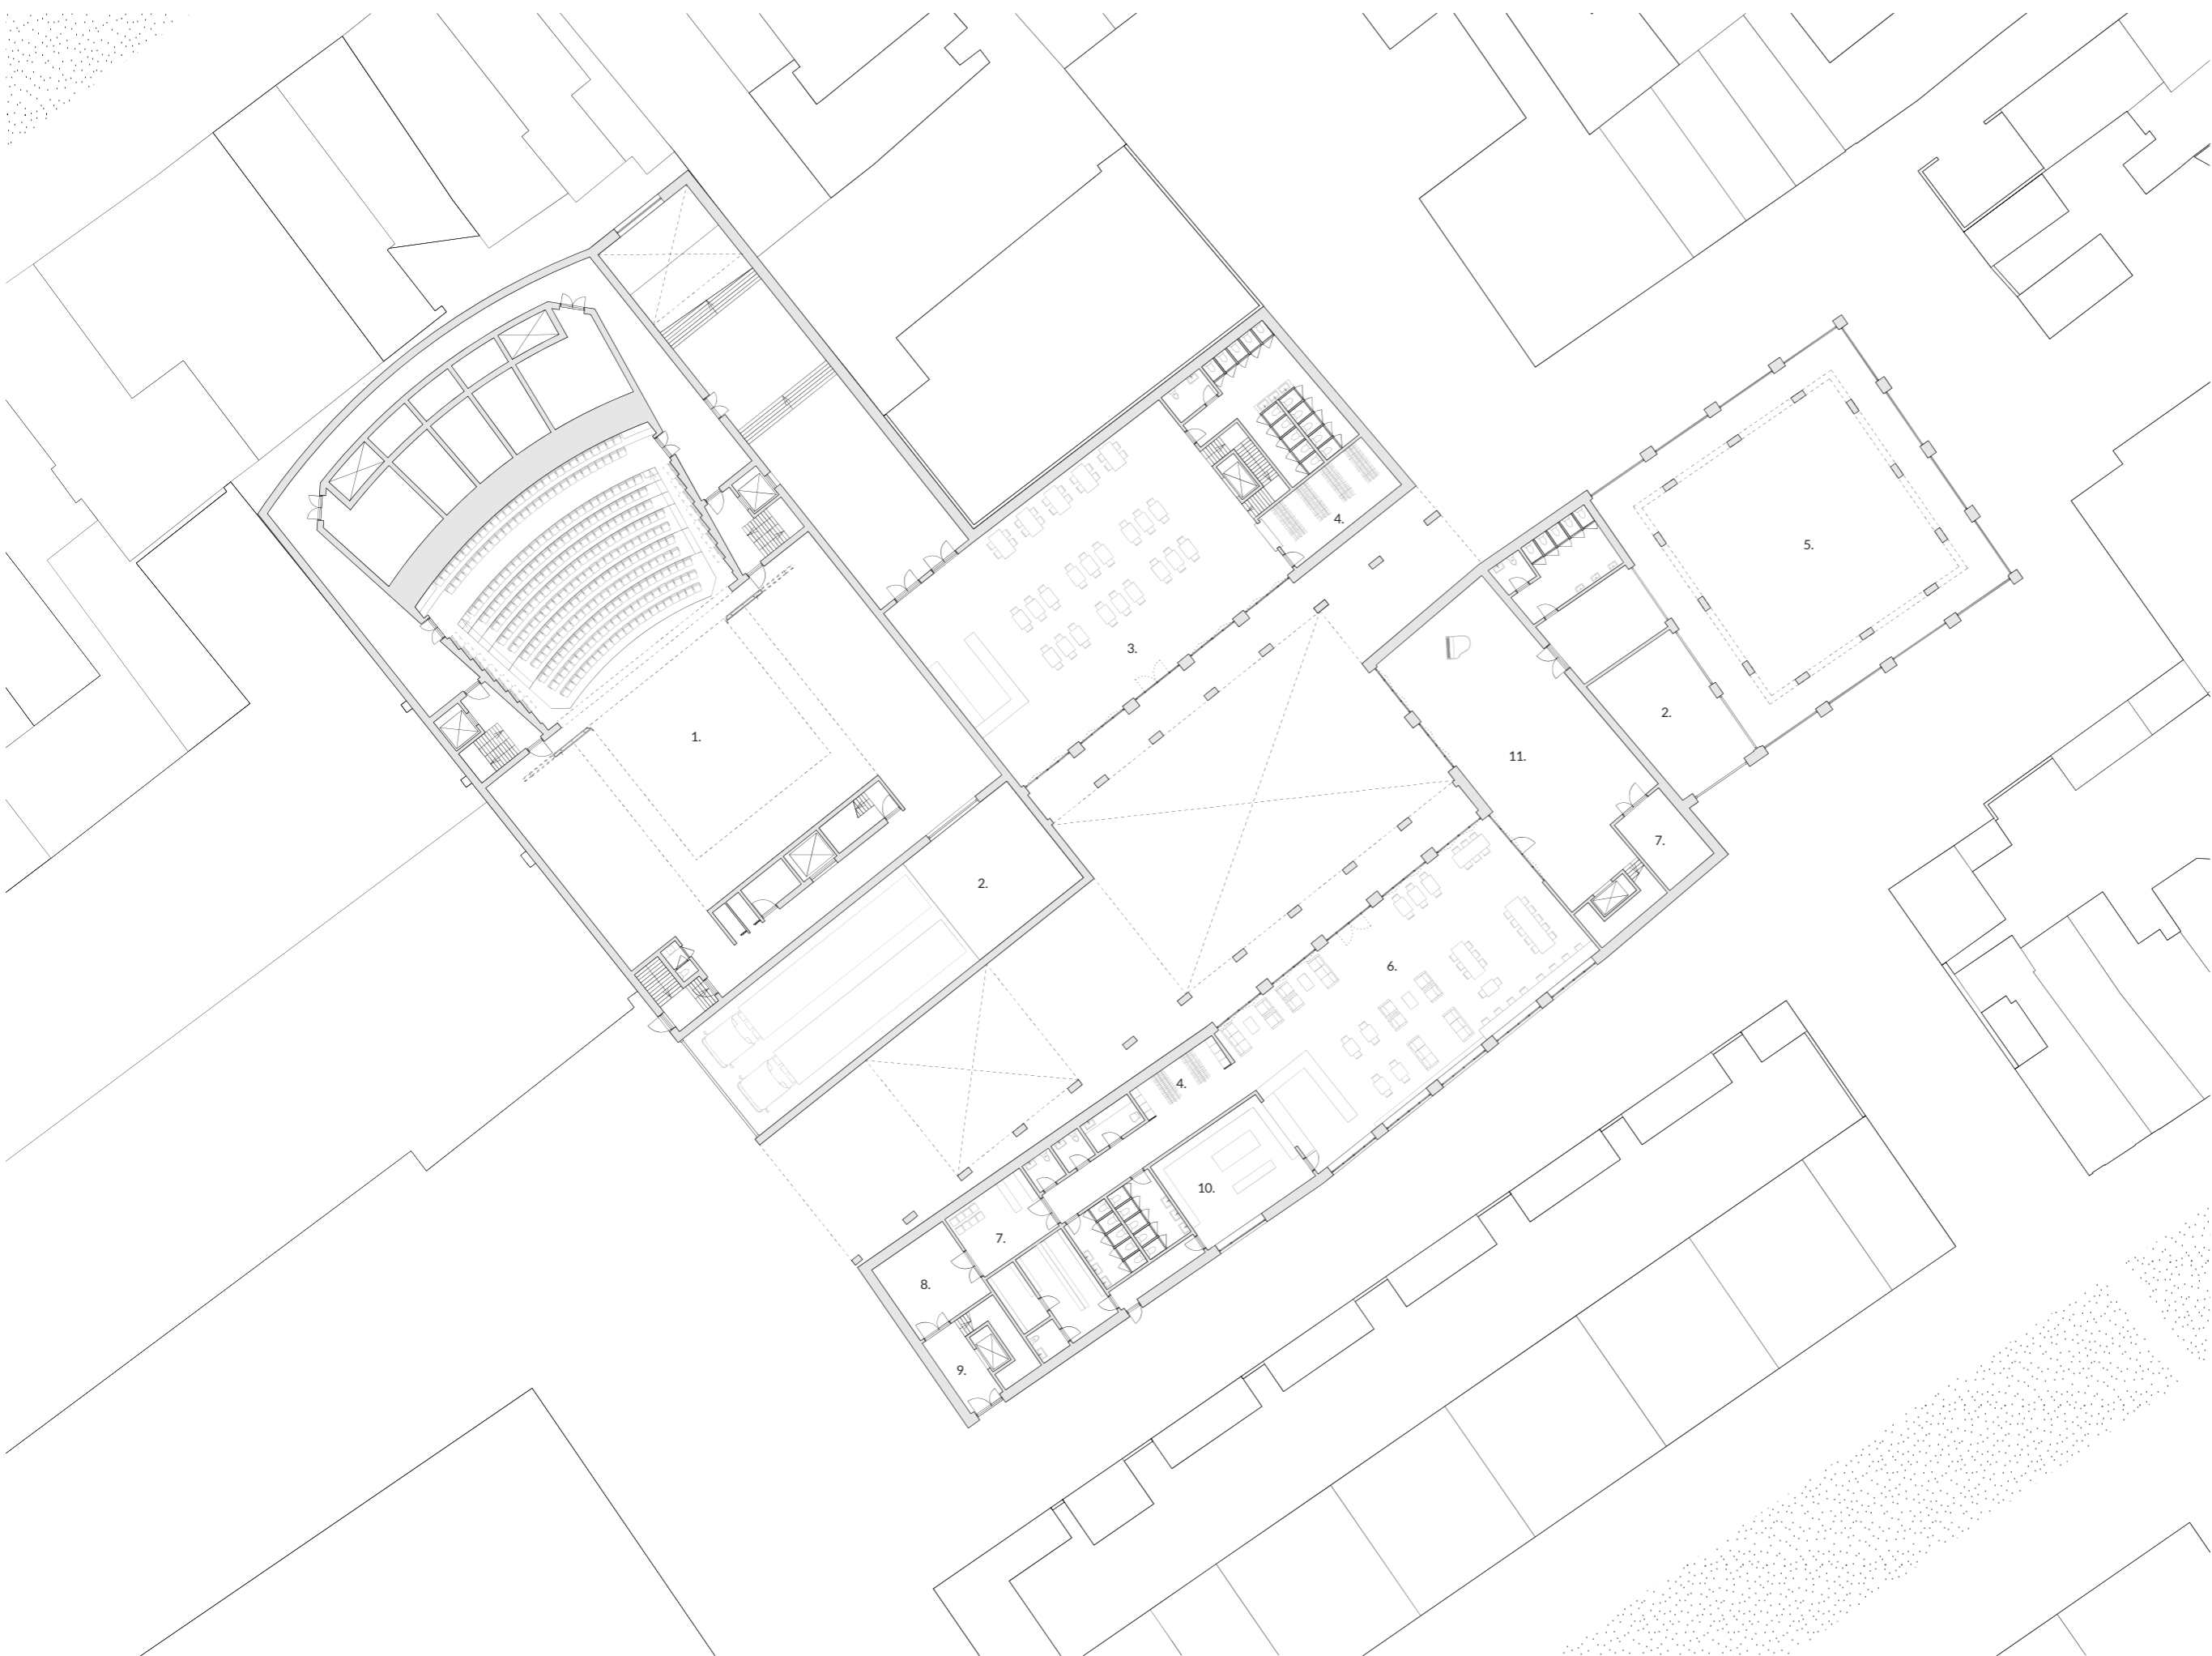

0 25 50 100 m

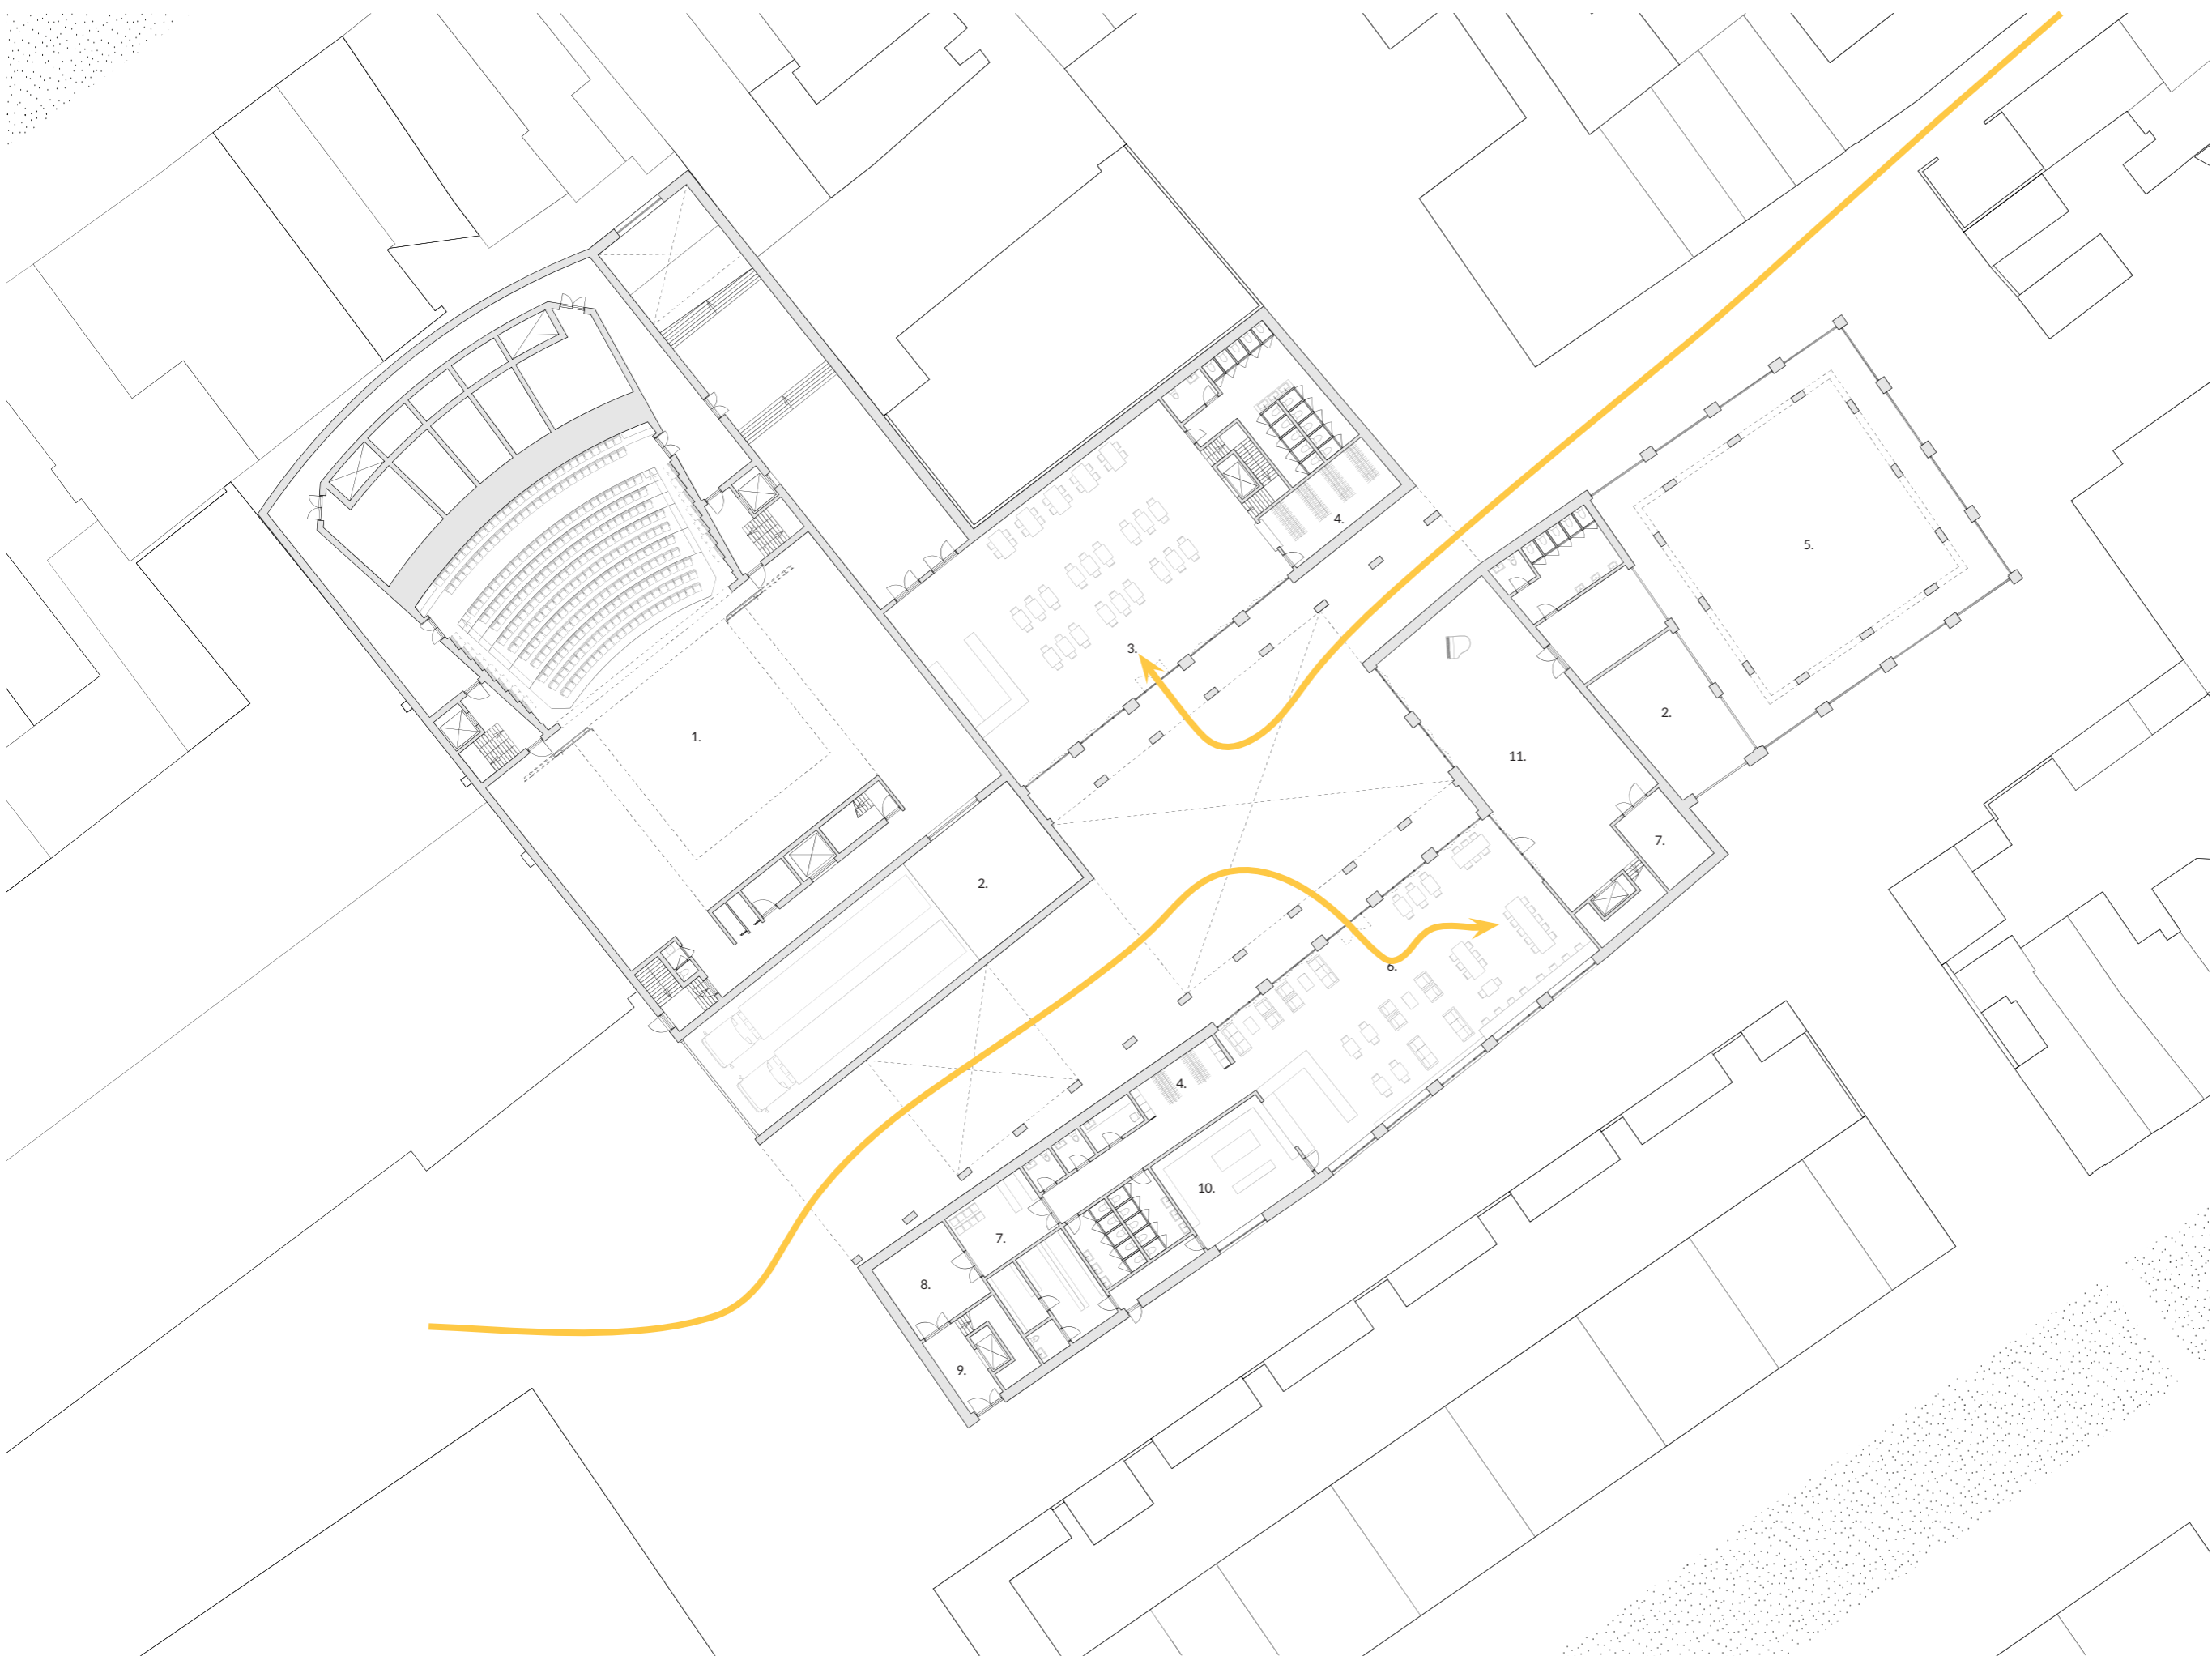

Ground floor

- 1. Auditorium
- 2. Delivery area backstage
- 3. Foyer + bar
- 4. Garderobe
- 5. Flexible performance space
- 6. Foyer + café
- 7. Storage
- 8. Technical room
- 9. Artist and employee entrance
- 10. Kitchen
- 11. Additional space for events and workshops

- 2 1320,440,410 mm masonry,
recycled rubble (concrete and bricks)and
lime-cement concrete
35 mm mortar joints
3 mm separating layer
Schüco bi-folding doors
100 mm hemp concrete
15 mm lime plaster

04

Curtain call

The **Theatre of the Future** should not only be a place for performance, but also a **public space for everyday life.**

Through a **courtyard** at its center, this project reimagines Theatre de Veste as a building where **performance and public life can coexist.**
