[DOI: 10.1063/1.1808489]

The second to last paragraph of the paper has an incorrect equation. The peak spacing should be scaled by the fraction of the voltage that drops across the substrate-nanotube junction, $C_{\text{tip}}/(C_{\text{sub}}+C_{\text{tip}})$, rather than the tip-nanotube junction as stated in the paper. The energy values given in the paper use the correct scaling factor.
