plot

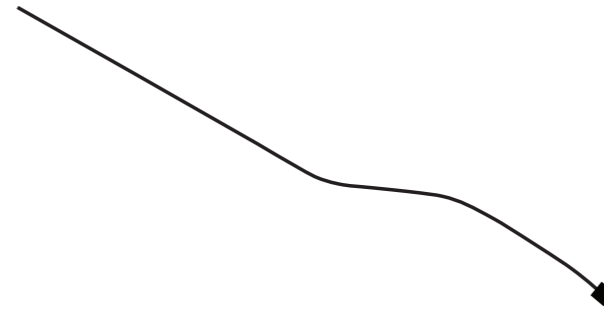

01
linear plot

Rio Arzobispo stretching on 1 km
in Teusaquillo; plot width 30m on average

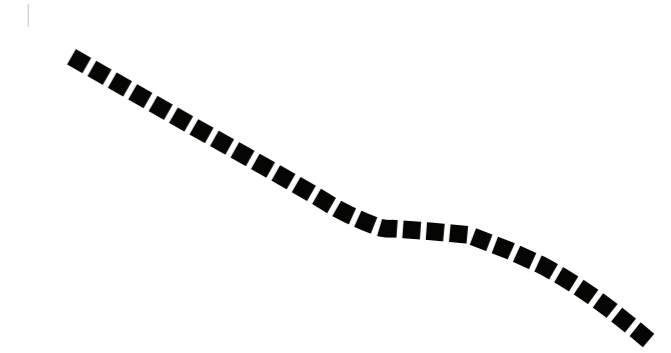

02
drama of space

drama introduced by a sharp contrast be-
tween the complicated, multi-layered
neighbourhood and the simple, clear design

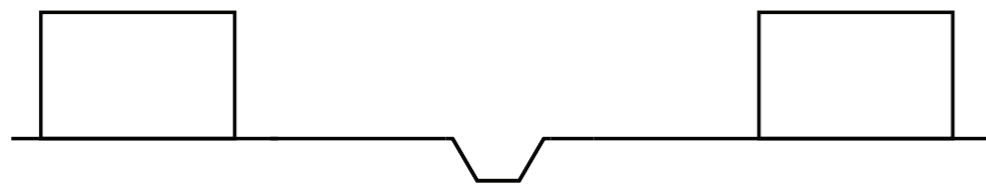

03
single frame

single frame, designed as the basic building
element, in which the topics of fundamentals
of architecture and water experience are care-
fully studied

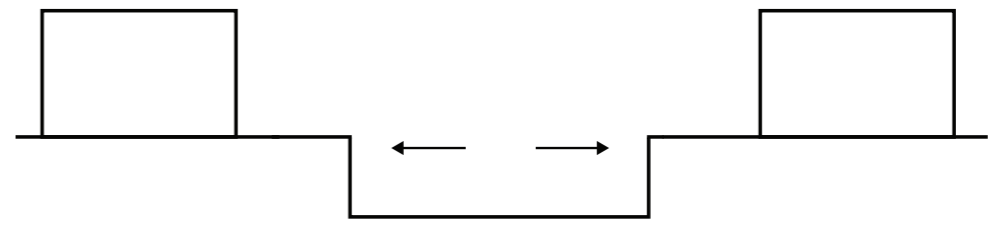

04
sequence of iterations

variations on the basic building element
repeated over the course of the river
