## **APPENDIX A**

Table 10. Inflators analysed. Highlighted in yellow, the devices specified for angioplasty. Highlighted in green, the devices analysed in this assessment.

BRAND	BSC*	BSC	BSC	Diversatek™ Healthcare	Cook
PRODUCT	Encore™ 26	Alliance™ II Handle	Alliance™ II Inflation Syringe	Viper®	Dilation syringe
USAGE	Balloon dilatation, endoscopy, urology	Balloon dilatation, endoscopy, urology	Balloon dilatation, endosco- py, urology	Endoscopy	Endoscopy, surgery
MAX. PRESSURE (atm)	26		12	14	13
FLUID CAPACITY (mL)	20		50	60	50
MANOMETER	Analog		Analog	Analog	Analog
LOCK MECHANISM	Finger latch	Similar to caulk gun	Alliance™ Handle	Alliance™ Handle	Squeeze the handle
STERILISATION	EtO	High-level disinfection	EtO	Non-Sterile**	Non-Sterile**
SINGLE-USE	Yes	Reusable	Yes	Yes	Yes
REFERENCE	BSC (2023)	BSC (2020)	BSC (2020)	Diversatek Healthcare (2022)	Cook Medical (2024)
OTHER	Previously used in IR department at LUMC. Widely used for angioplasty procedures.	To be used together with Alliance™ Syringe	To be used together with Alliance™ Handle	Compatible with Alli- ance <sup>TM</sup> II Handle. Use according to inflation handle manufacturer's instructions. Glow in the dark pres- sure gauge	Compatible with 60 mL syringe inflation handles (it does not specify which one). Assemble and use according to inflation handle manufacturer's instructions.

\*\*It does not clarify the requirement for further processing (sterilisation).

BRAND	BSC, Cook, B. Braun, Olympus, BD, Acclarent, Argon Medical, etc.							Demax	Medtronic		
PRODUCT	Distribution names: CRE SteriFlate™, Cook Sphere®, Eagle™, etc.							Mastro®, Mastro® Plus	Everest		
USAGE	Balloon dilatation. TAVR, ENT, coronary, peripherial, endoscopic, vertebrae, urologyical, and nephorological interventions								PTCA	Balloon dilatation	
MAX. PRESSURE (atm)	15	30	55	30	30	30	40	15	15	Two options: 30, 40	30
FLUID CAPACITY (mL)	10	10	14	20	20	25	25	40	60	Two options: 20, 30	20
MANOMETER	Analog								Analog	Analog	
LOCK MECHANISM	Quick Latch except for 30 atm 20 mL (Press-to-Release Button)								Selok® patent	Actuator as trigger	
STERILISATION	Sterile								EtO	EtO	
SINGLE-USE	Yes								Yes	Yes	
REFERENCE	Atrion Medical (2020)								Demax (2020)	Medtronic (2016)	
OTHER	Patents and manufactured by Atrion Medical					Ergonomic design patent	Gun-style ergonomic design. Round ridged knob. Currently used in IR and IC depart- ments at LUMC				

 $<sup>\</sup>ensuremath{^*\text{It}}$  does not clarify the requirement for further processing (sterilisation).
