The Acknowledgements section in this Article is incomplete.

"This work is funded by NatureCoast, a project of technology foundation STW (applied science division of NWO) and the Deltares Strategic Research Programme 'Coastal and Offshore Engineering'. Roshanka Ranasinghe is supported by the AXA Research Fund. We would like to thank Peter Ruggiero (Oregon State University), Cheryl Hapke (USGS) and Mitch Harley (UNSW Water Research Laboratory) for sharing the long-term in-situ shoreline measurements allowing for a multi-site validation. The Google Earth Engine team is acknowledged for enabling this global assessment through the GEE platform and their assistance during the analysis. We would also like to acknowledge the map data copyrighted OpenStreetMap contributors for using the map data available from https://www.openstreetmap.org."
