Eerste bedrijven stoten kantoren af: thuiswerken wordt de norm

De eerste bedrijven sluiten de kantoren om thuiswerken de nieuwe norm te maken. Voor de kantorenmarkt heeft dat de komende jaren nog geen heel grote gevolgen, denken vastgoedexperts.

'Booking.com schraapt maximaal duizend banen in Amsterdam'

Vakbond FNV verwacht dat er maximaal duizend banen verdwijnen bij het Amsterdamse hoofdkantoor van Booking.com. Dat is minder dan het bedrijf zelf drie maanden geleden in het vooruitzicht leek te stellen, bij een aankondiging van een rigoureuze reorganisatie.

Main research question

“ How can a strategy be developed that large corporates in the Netherlands could implement to proactively realign their corporate real estate office portfolio to their post pandemic corporate and real estate priorities? ”

Proactive realignment strategy

“ contains a method with guidelines and measures to transform the office portfolio in advance to ensure it supplies to the future demand.... ”

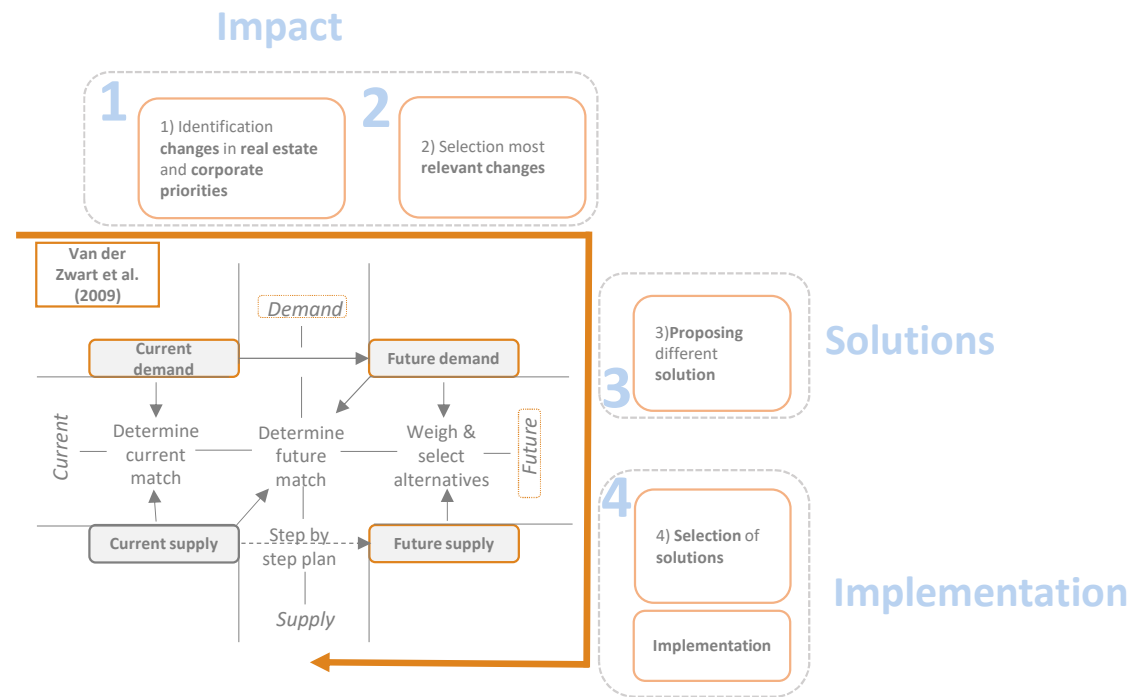

Corporate and real estate priorities

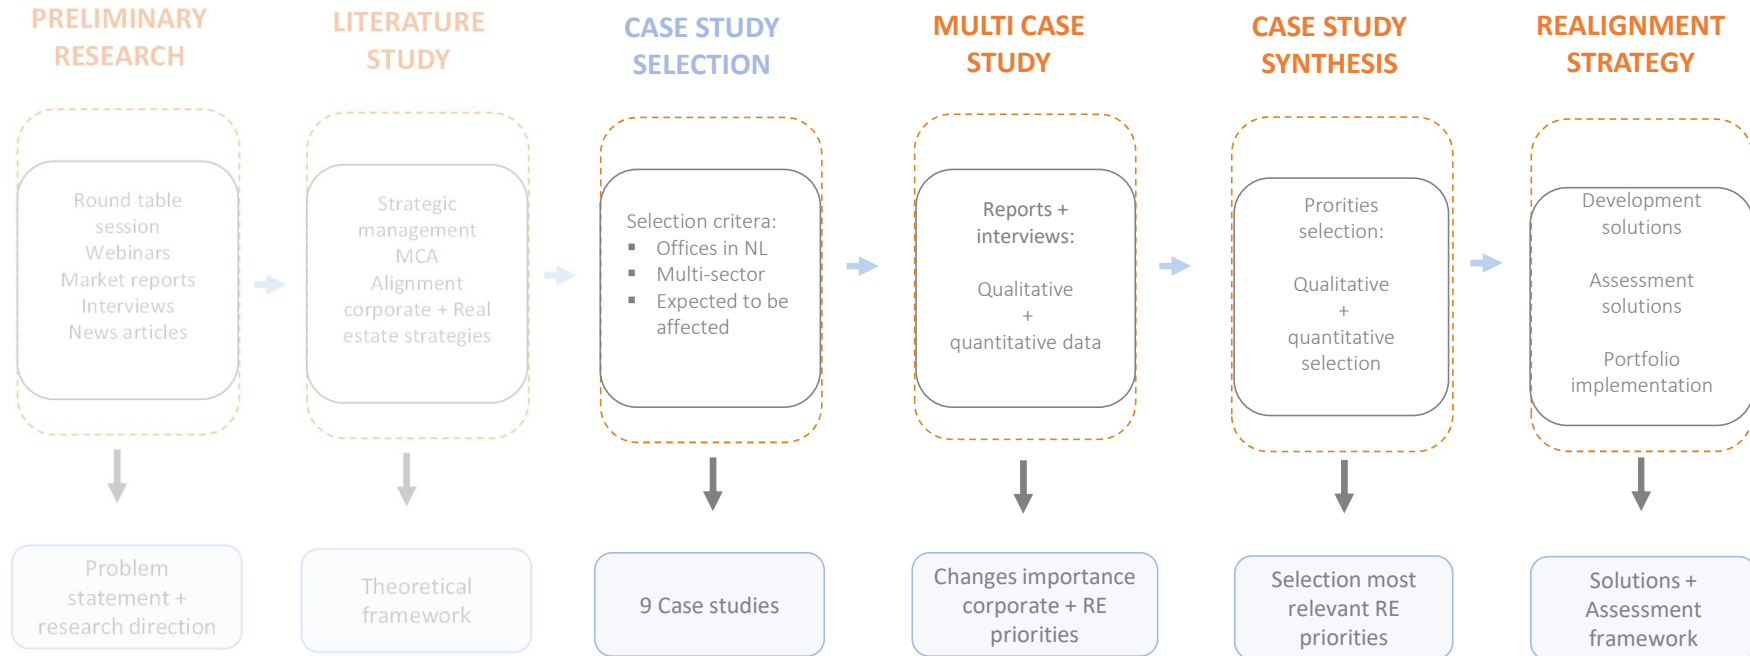

“ Priorities are formulated on a strategic level and the real estate priorities are steered by the corporate priorities ”

“

*Increase of **flexibility** within the office portfolio is considered the **starting point** for the realignment strategy*

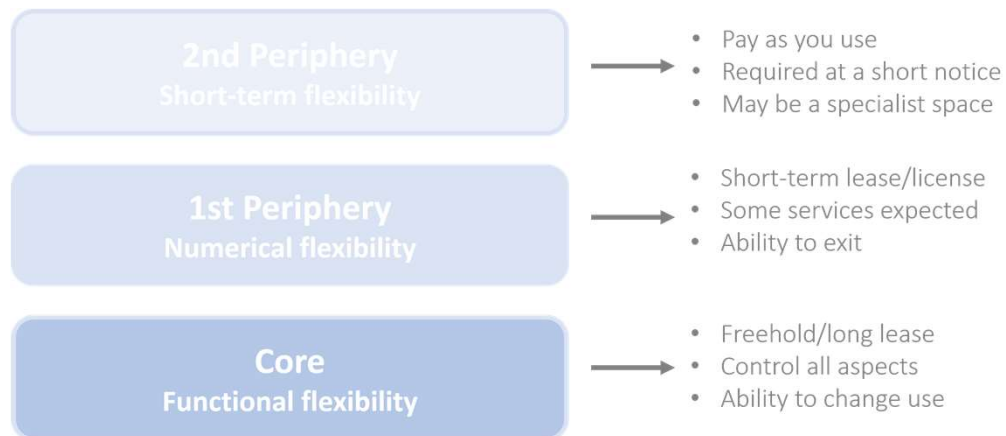

”

Solutions

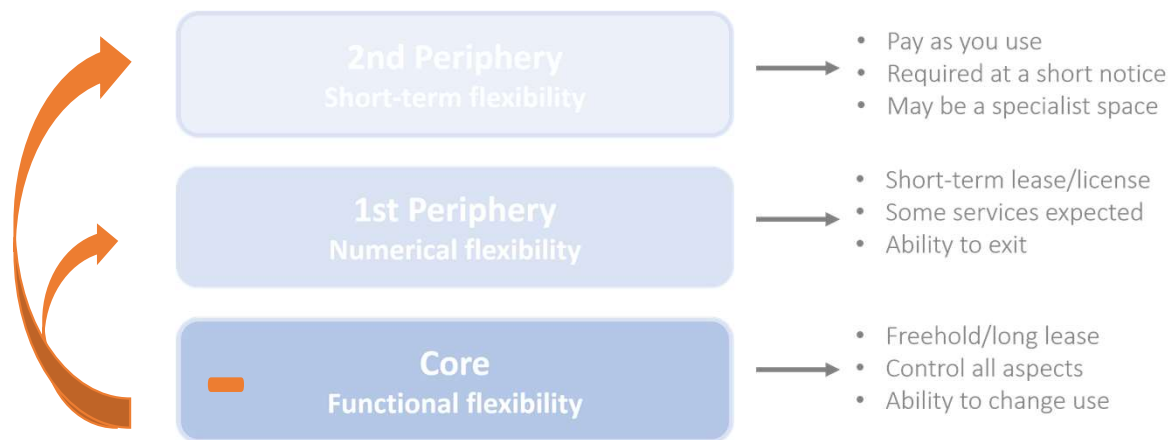

3) Proposing different solution

How to **increase flexibility** within the office portfolio

Flexibility framework of Gibson and Lizieri (1999)

How to **increase flexibility** within the office portfolio

Flexibility framework of Gibson and Lizieri (1999)

Three integrated flexible solutions

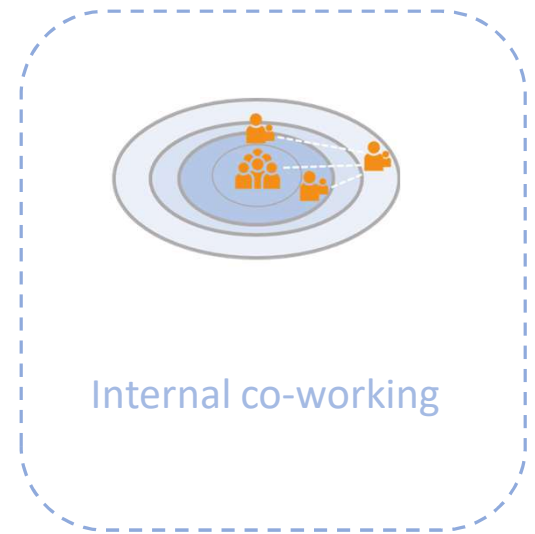

Solution A

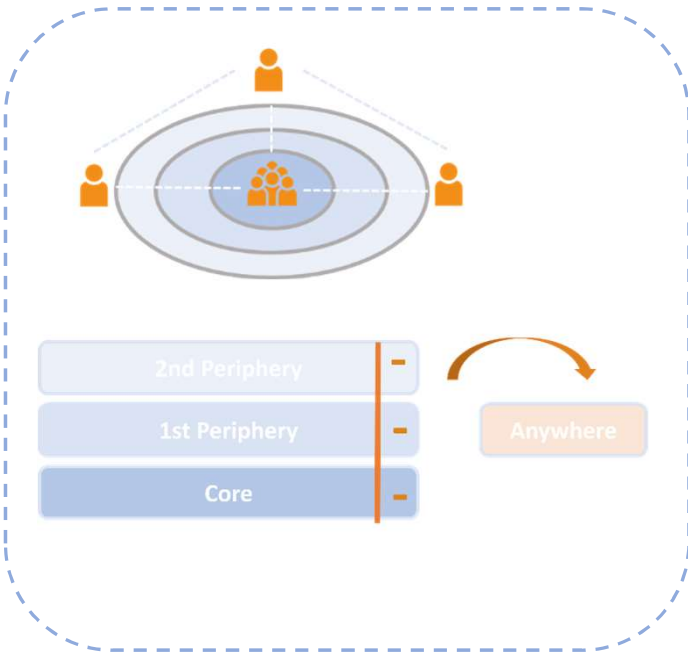

Solution B

Solution C

Solution A - Working from anywhere

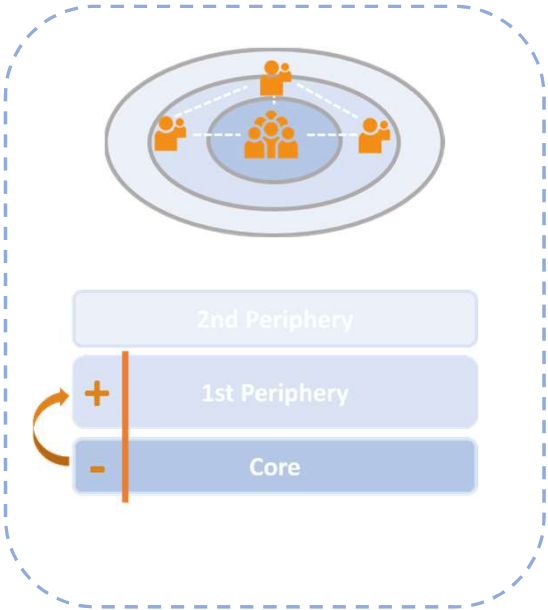

- ❑ Employee works from home or any other location of choice
- ❑ Employer does not provide for this space

Applicability

Company characteristics		Portfolio characteristics	
Type of office work	Priorities	Owned vs leased	Asset types
- Highly confidential work	- High priority of cultural support	- Owned office buildings	- High variety of asset types
+ No dependency office facilities	+ High priority of sustainability	+ Emphasis on leased portfolio (core)	

Solution B – External co-working

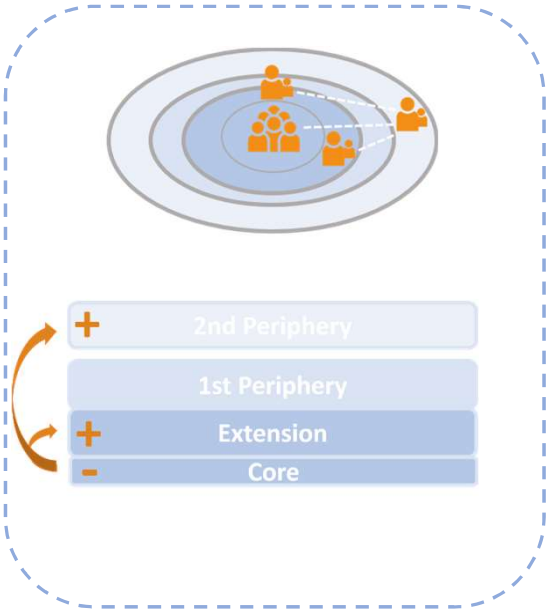

- ☐ Dedicated space from a serviced office provider
- ☐ Majority for collaboration, small area for focus work
- ☐ In proximity of core office
- ☐ Short lease length
- ☐ Additional investments needed to support company culture

Applicability

Company characteristics		Portfolio characteristics	
Type of office work	Priorities	Owned vs leased	Asset types
<ul style="list-style-type: none"> - Highly confidential work 	<ul style="list-style-type: none"> - High priority of cultural support - High priority of cost reduction 	<ul style="list-style-type: none"> - Owned office buildings 	<ul style="list-style-type: none"> - High variety of asset types
<ul style="list-style-type: none"> + Low dependency office facilities 	<ul style="list-style-type: none"> + High priority of sustainability 	<ul style="list-style-type: none"> + Emphasis on leased portfolio (core) 	

Solution C – Internal co-working

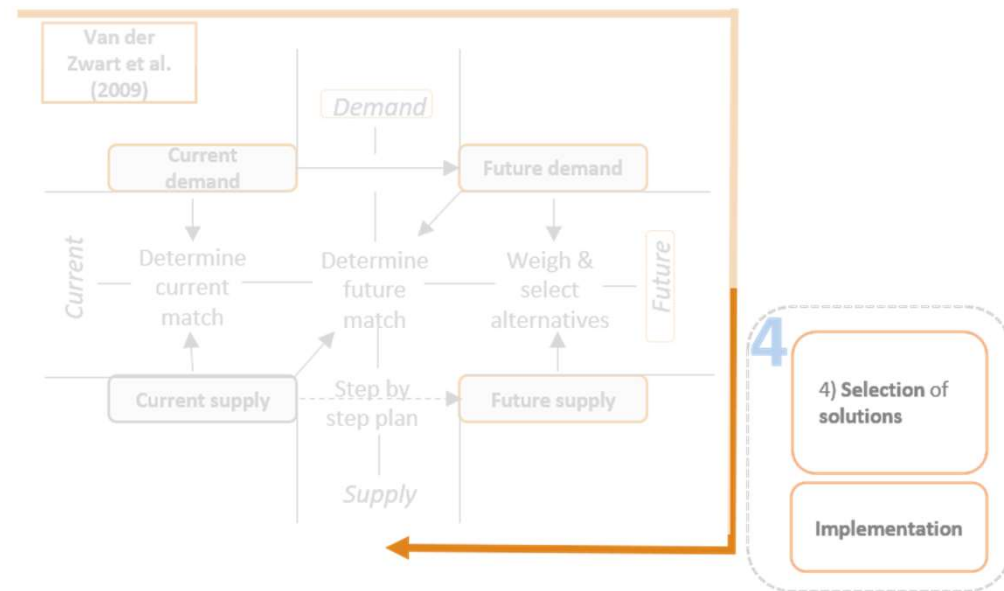

- ☐ Dedicated space from a serviced office provider
- ☐ Located as close as possible to core space
- ☐ Short lease length
- ☐ Collaboration space

Applicability

Company characteristics		Portfolio characteristics	
Type of office work	Priorities	Owned vs leased	Asset types
- Highly confidential work	- High priority of cost reduction	- Owned office buildings	- High variety of asset types
+ Moderate dependency office facilities	+ High priority of sustainability + High priority of cultural support	+ Emphasis on leased portfolio (core)	

“ Three possible flexible integrated solutions could reduce the core space and increase the flexibility of the office portfolio, however their applicability depends on the company and portfolio profile ”

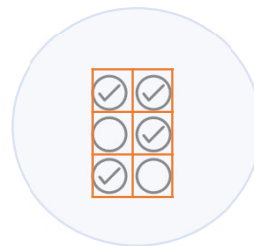

Implementation

Assessment

RE priority	Post- pandemic Measurable items	Weights	Score sol. 1	Score sol. 2	Score sol. 3
Increasing productivity	Distance employee		+	o	o
	Informal and concentrated space distribution		+	o	o
	Retain human capital		+	o	o
Increase of flexibility	Organisational flexibility		o	+	+
	Financial flexibility		+	-	-
	Technical flexibility		-	-	-
Cultural support	Interaction		-	-	+
Sustainability	Reduction of m2		+	o	+
	Mobility		+	+	o
	Shared resources		-	+	+
Technology	Technological support		+	o	o
Total score			4	o	2

- Working from anywhere scores the highest
- Internal co-working is an effective addition to 'organizational flexibility', 'Interaction' and 'shared resources'
- The combination of Working from anywhere and internal co-working is considered most effective
- (priorities not taken into account)

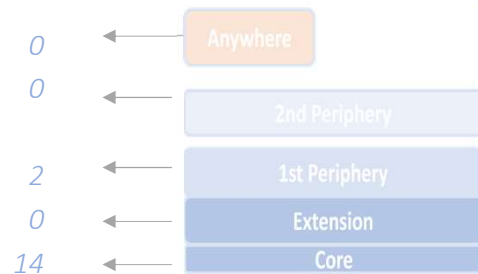

Implementation case portfolio

Office portfolio + approach

Property selection

16 offices located in 8 different countries

Present flexibility

Implementation

Quantified goals of the strategy:

- ❑ -20% desks in core
- 50% 'working from anywhere'
- 50% 'internal co-working'
- ❑ + 15 % collaboration space

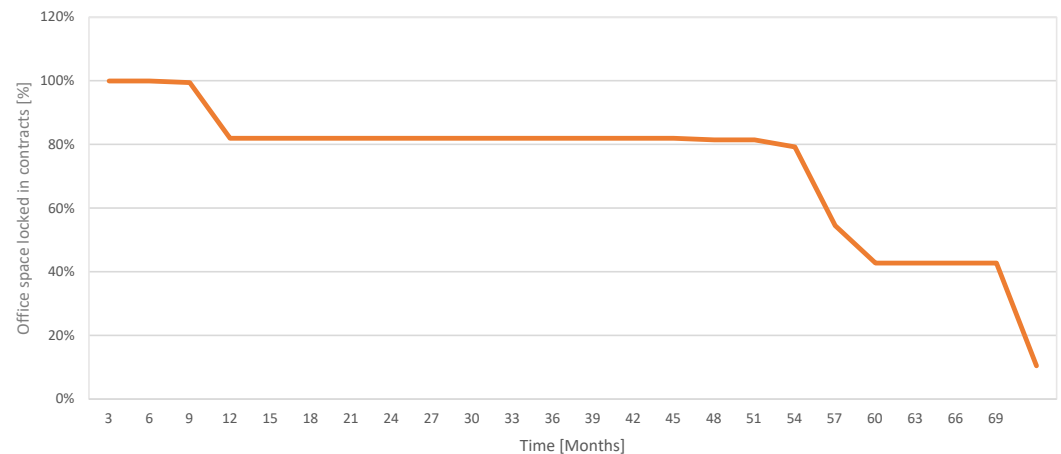

Implementation on case portfolio

Implementation

Interesting findings

- ❑ 'Working from anywhere' can be implemented **immediately** and transformed into collaboration space
- ❑ The **duration** of implementing **internal co-working** is driven by **existing lease contracts**
- ❑ In the **short term** the amount of **core office space** will likely not have to be down- or upsized
- ❑ Implementation takes at least 6 years

Office space locked in contracts v.s months

Conclusions

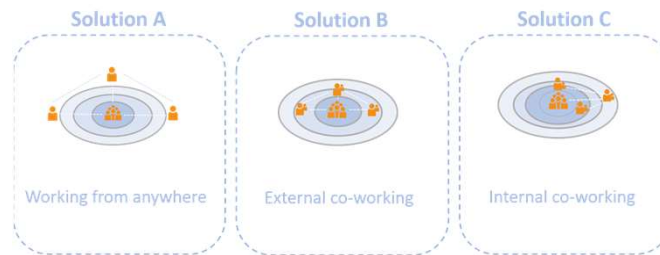

Question

“ How can a strategy be developed that large corporations in the Netherlands could implement to proactively realign their corporate real estate office portfolio to their post pandemic corporate and real estate priorities? ”

Conclusion

- ❑ The selection of most relevant priorities for post-pandemic realignment are 'support culture', 'increase flexibility', 'increase productivity', 'increase sustainability' and 'increase technology'
- ❑ Three integrated flexible solutions could reduce the core space

- ❑ The applicability of solutions depends on the company and portfolio profile
- ❑ The assessment framework can be used to select the solution(s) to implement

Even with a proactive approach implementation of flexibility could take years and accordingly the side effects of disposal could show later..
