

Architectural Translation of Public Sphere

The Stimulation of Meaningful Encounters between Strangers

Mart van Uden - 1503634

Tutors:

Olindo Caso, Gregory Bracken, Hubert van der Meel

Overview

Location

Den Haag HS

Location

Location

- 500 m radius

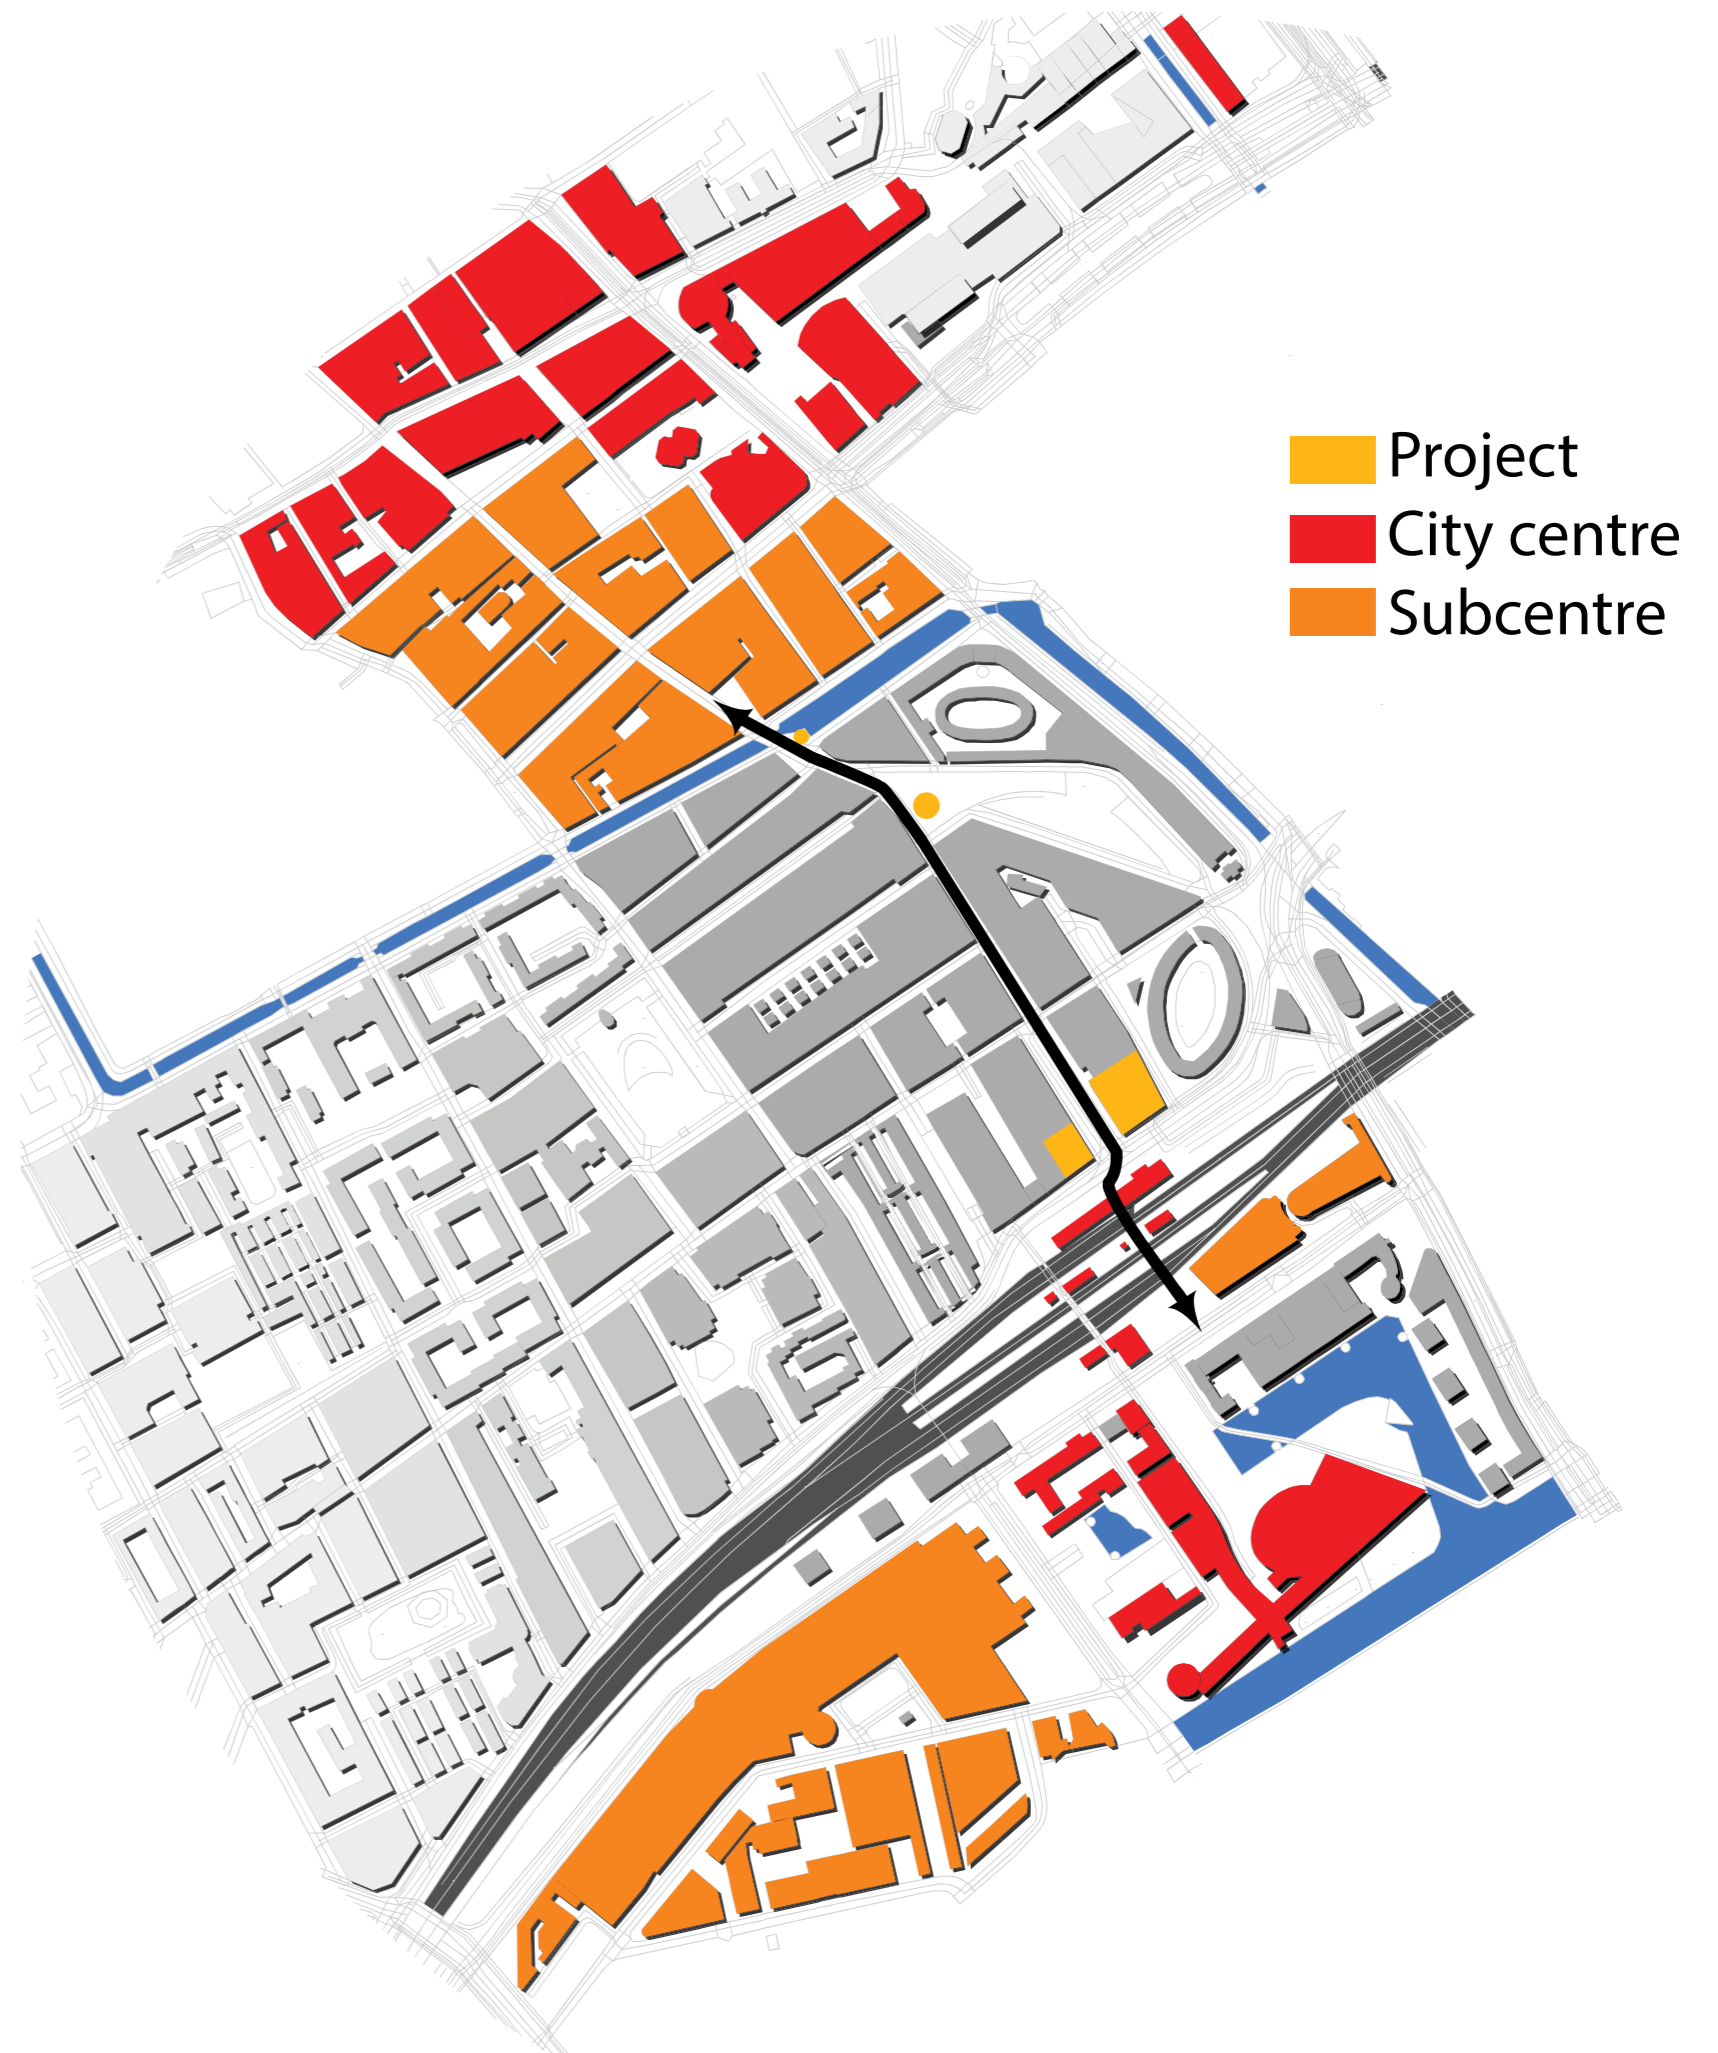

Location

- Mingling of people

Connecting Two Centres

Jurgen Habermas (1929 - ...)

Strukturwandel der Öffentlichkeit

The sphere of private people who join together to form a 'public'.

Public use of reason in rational-critical debate, which checked domination by the state and the illegitimate use of power.

Jurgen Habermas (1989)

Fall of Public Space

Freedom plaza - Washington DC

Conditions: accessibility

Accessibility
Meaning

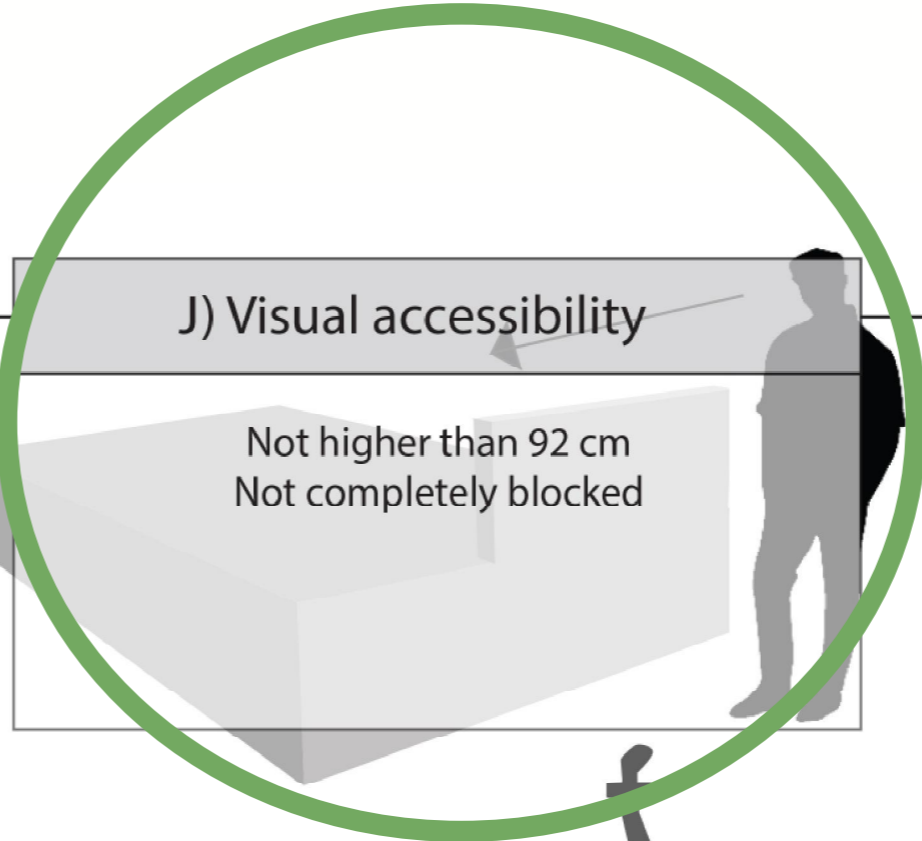

I) Physical accessibility

Accessible by everyone (including wheelchairs)
At least 5% seating with back

J) Visual accessibility

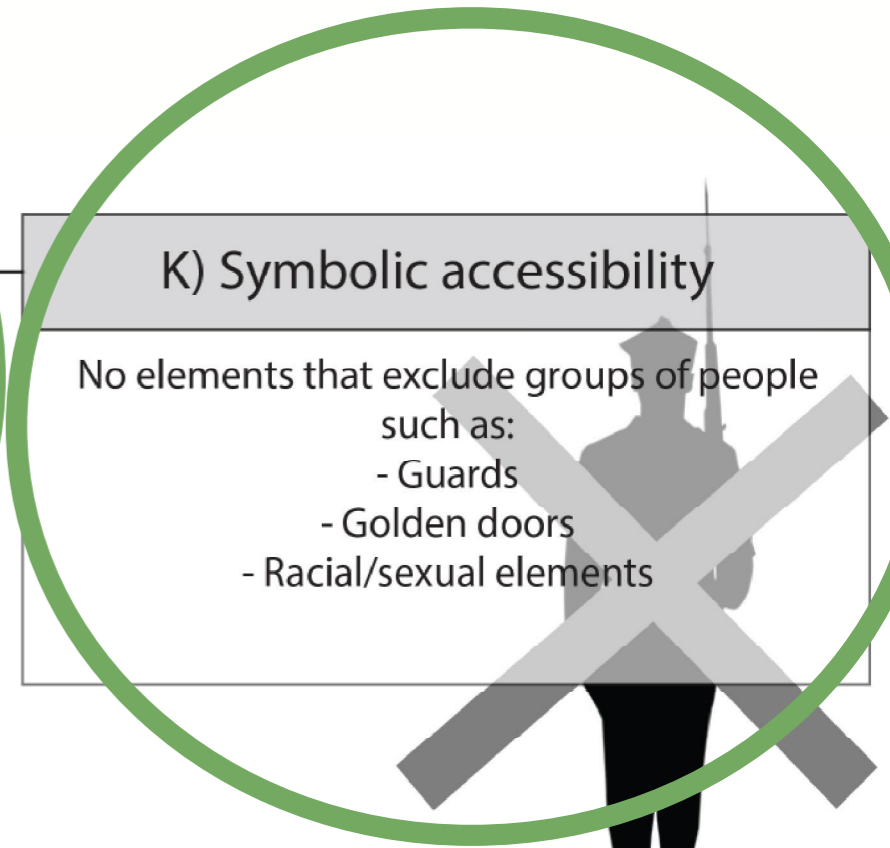

Not higher than 92 cm
Not completely blocked

K) Symbolic accessibility

No elements that exclude groups of people
such as:

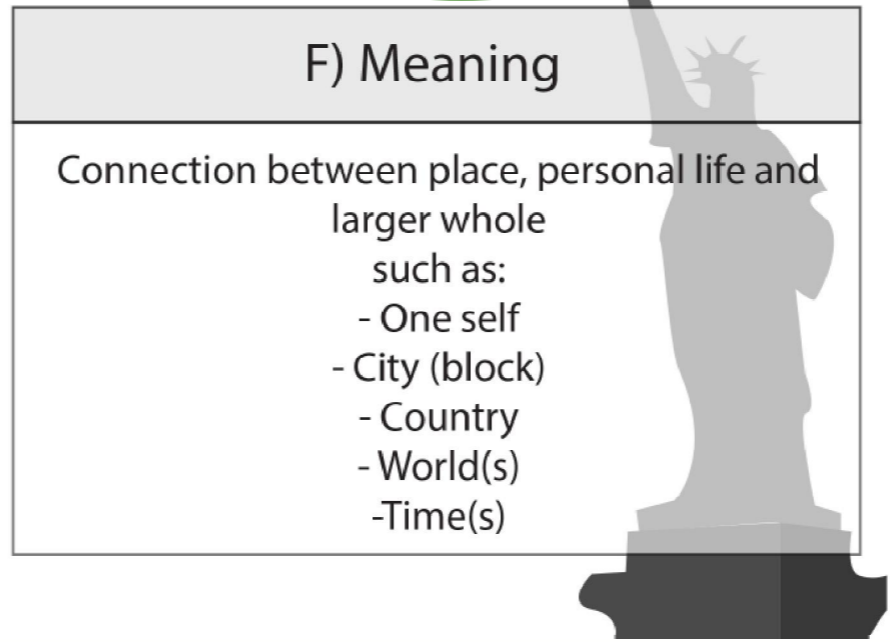

- Guards
- Golden doors
- Racial/sexual elements

F) Meaning

Connection between place, personal life and larger whole
such as:

- One self
- City (block)
- Country
- World(s)
- Time(s)

Reference

- Terraces: seeing and be seen

Forecourt Fountain - Portland, Oregon

Carr, Francis, Rivlin, Stone (1992)

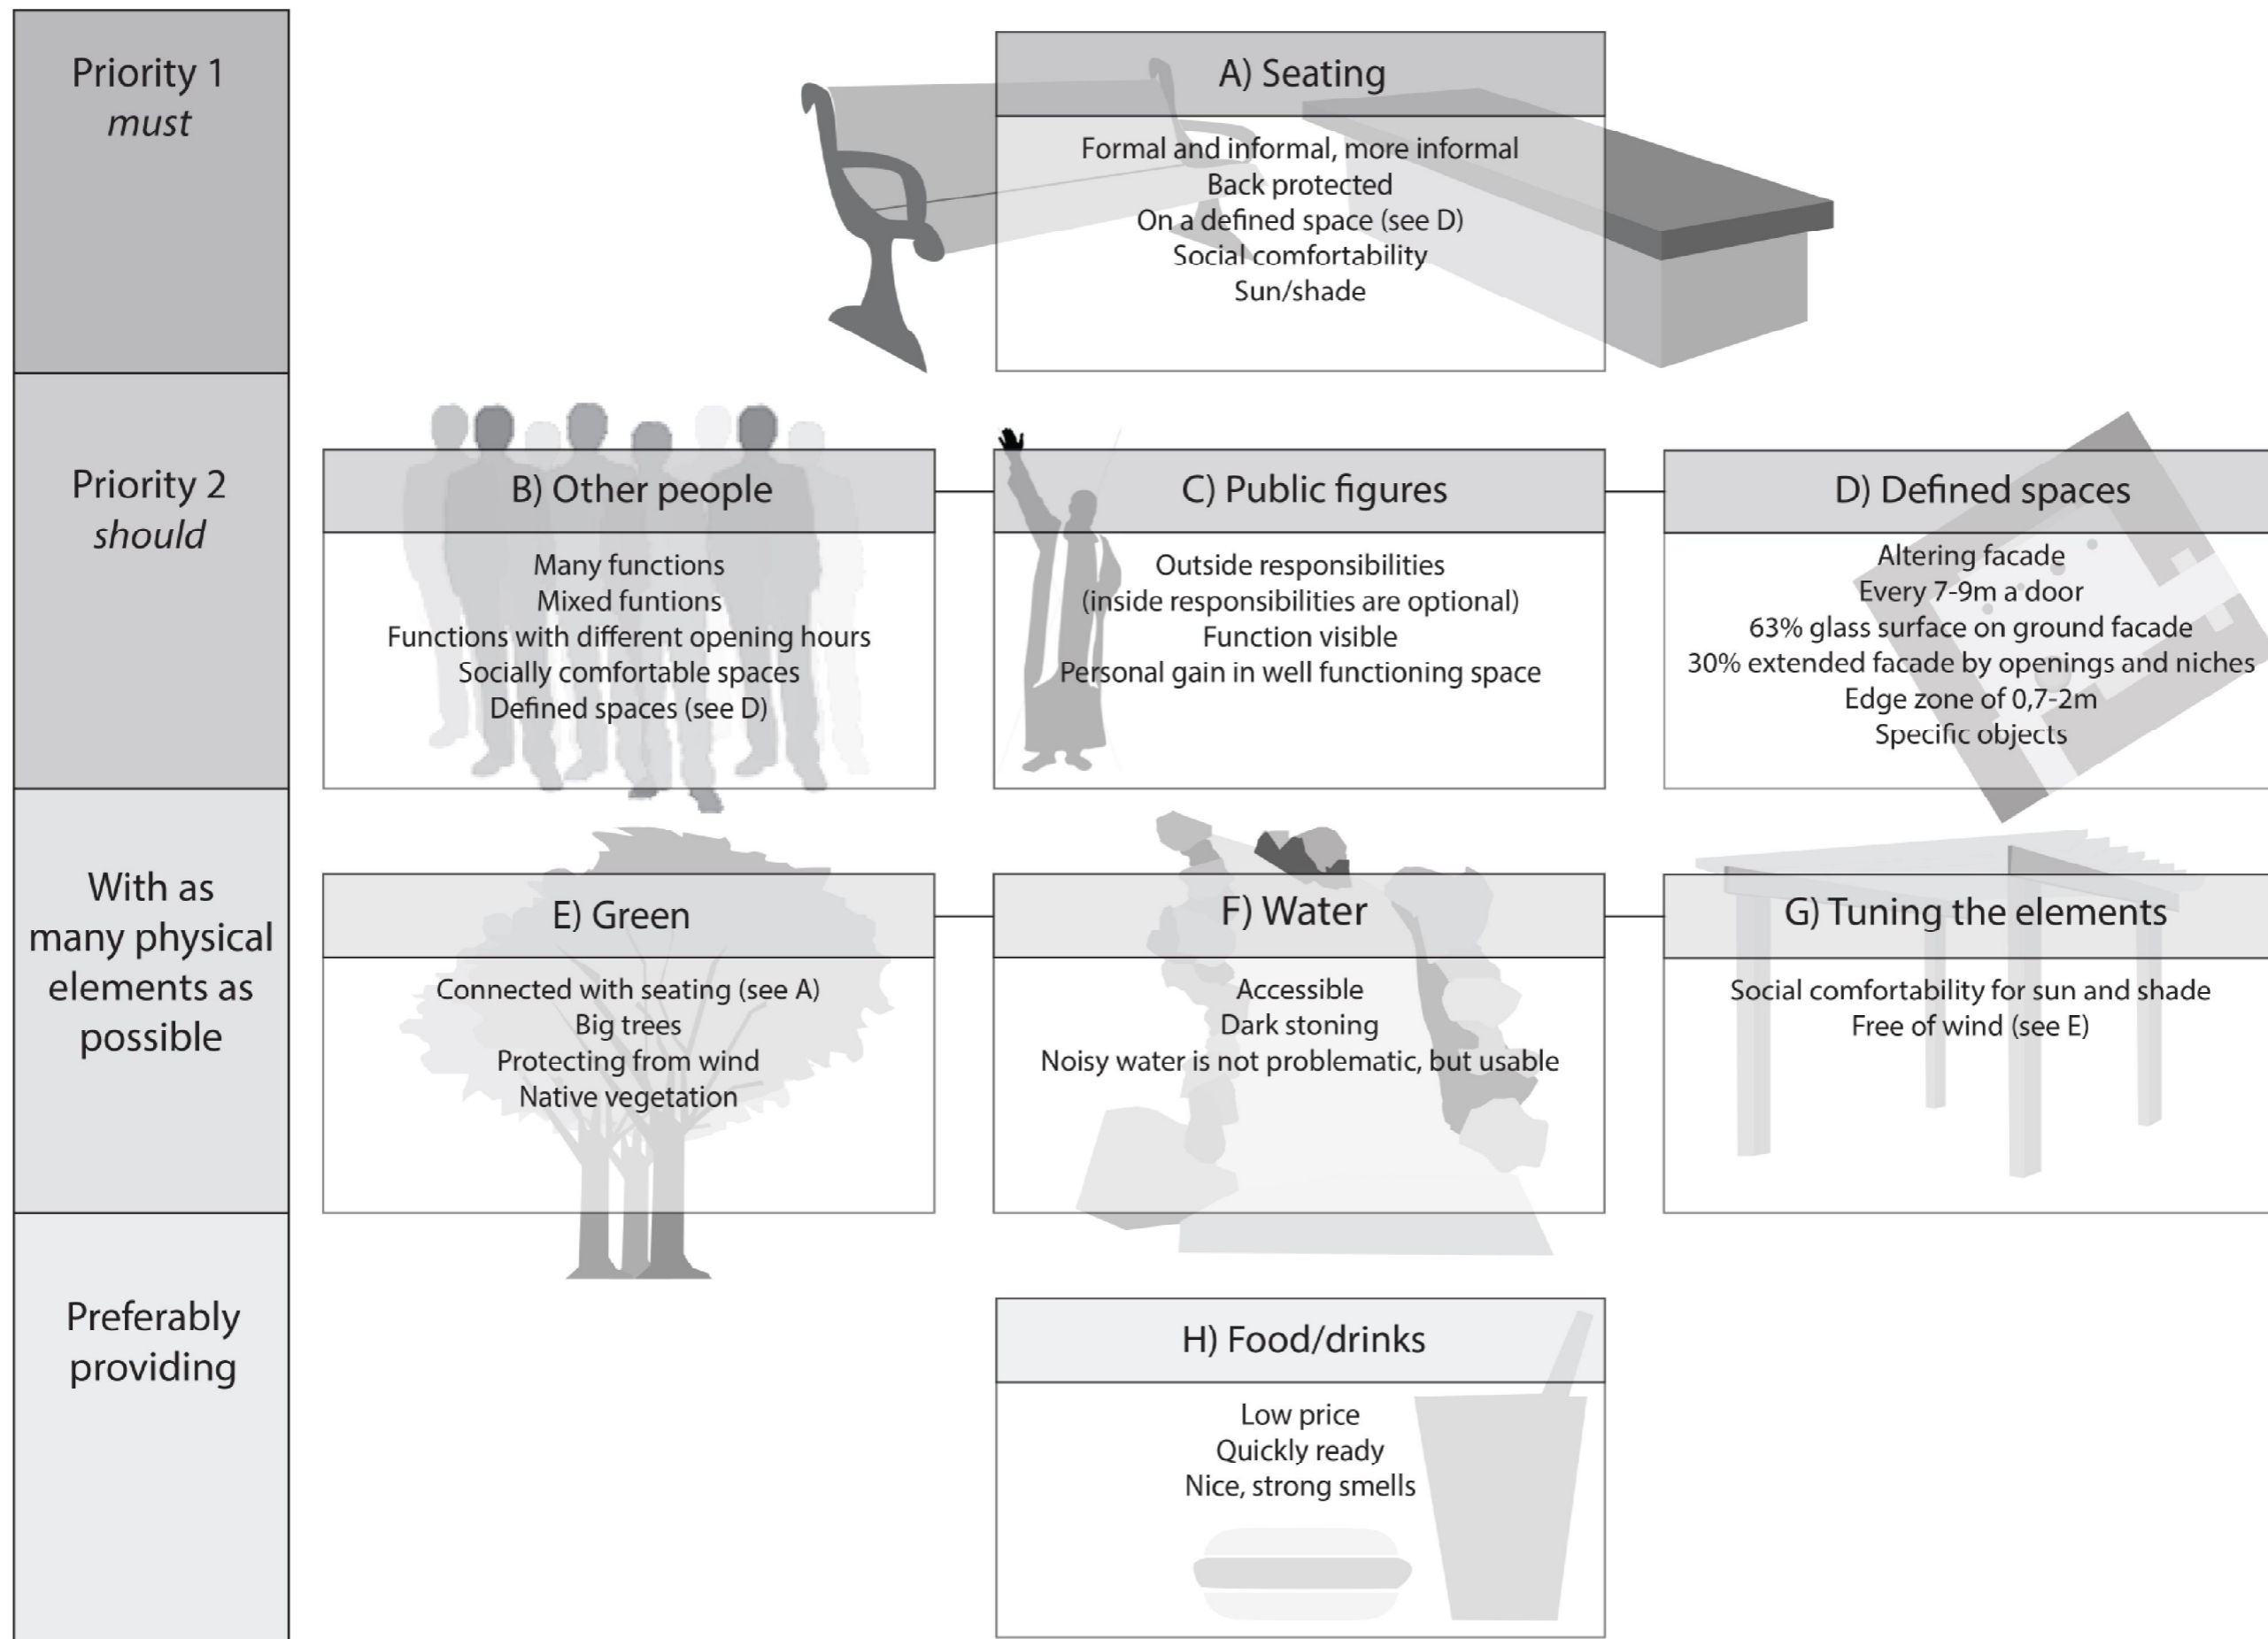

Terraces

Terraces

Design tools for gathering

Seating

- Defined spaces
- Protected back
- Formal and informal
- Socially comfortable

Temple Quarter - Bristol

*William H. Whyte (1980)
Henry Shaftoe (2008)
Jan Gehl (2011)*

Seating

Other people

- Variety in functions
- Socially comfortable spaces
- Defined spaces

Forecourt Fountain - Portland, Oregon

Carr, Francis, Rivlin, Stone (1992)

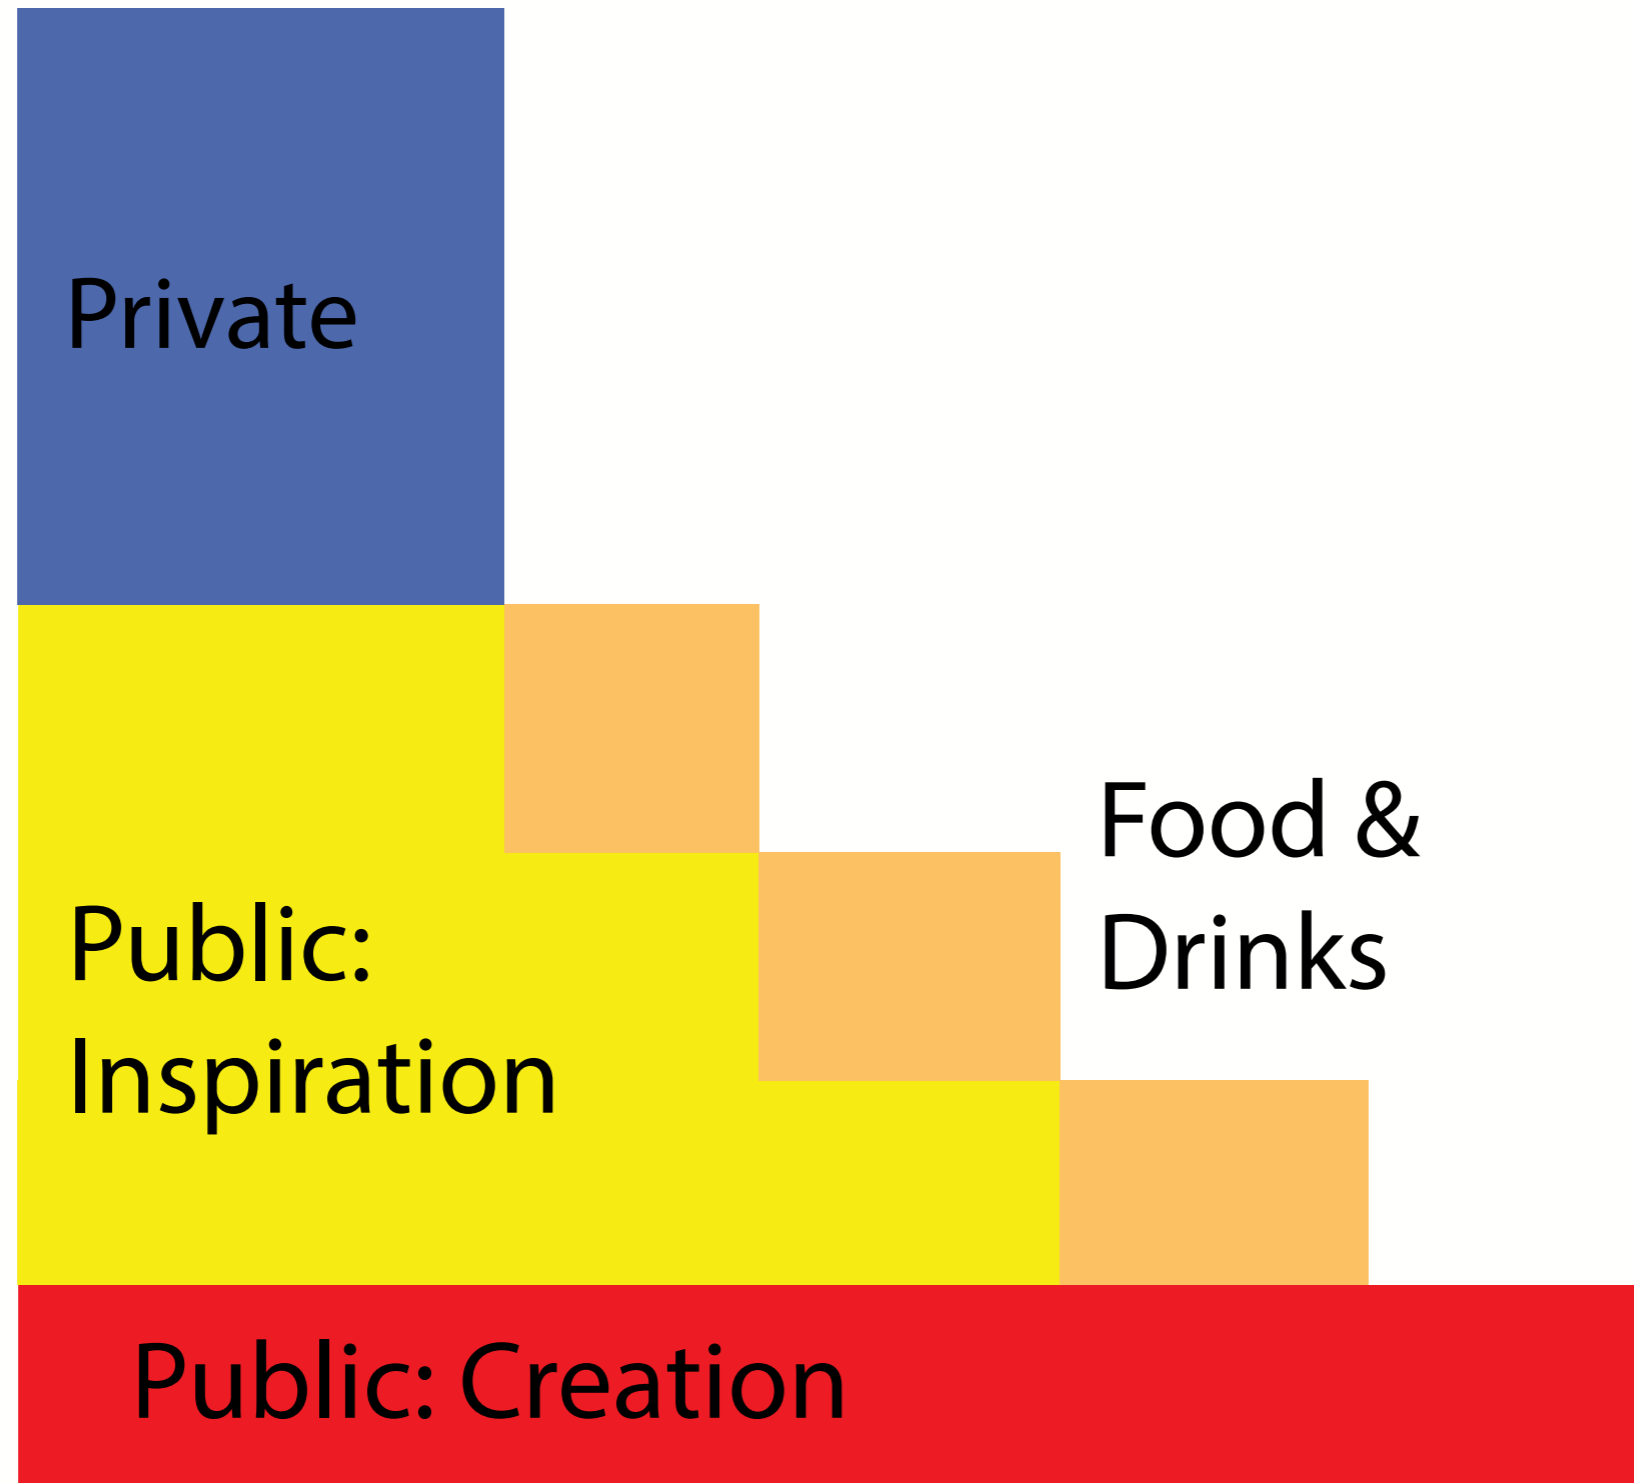

Other people

Other people

Food and drinking place

Stimulating conversation:

+01

Use of dominant screens

Dirk: Etnisch profileren gebeurt extreem veel in de stationswijk.
Ehonne: Dat is ook wel logisch met al die etnische diversiteit die er hier is.
Dirk: Dat is niet een excuus.
Linda: Ik ben het eens met Dirk: Etnisch profileren is fout ongeacht de specifieke locatie waar de plaats vindt.
Ehonne: Maar etnisch profileren is een hele handige gerichte tool van de politie om criminaliteit op te sporen. Dat is beter voor de stationswijk.
Linda: Het doel heiligt de middelen niet.
Dirk: Je haalt me de woorden uit de mond.

Use of dominant screens

Different use(r)s

From train: quick cup of coffee

From tram: specifically for makerspace

From student home: to study

From home: mother and child for library

From home: for band practice

From home: youngsters for place to hang out

Facade part

Solar chimney for ventilation

+01

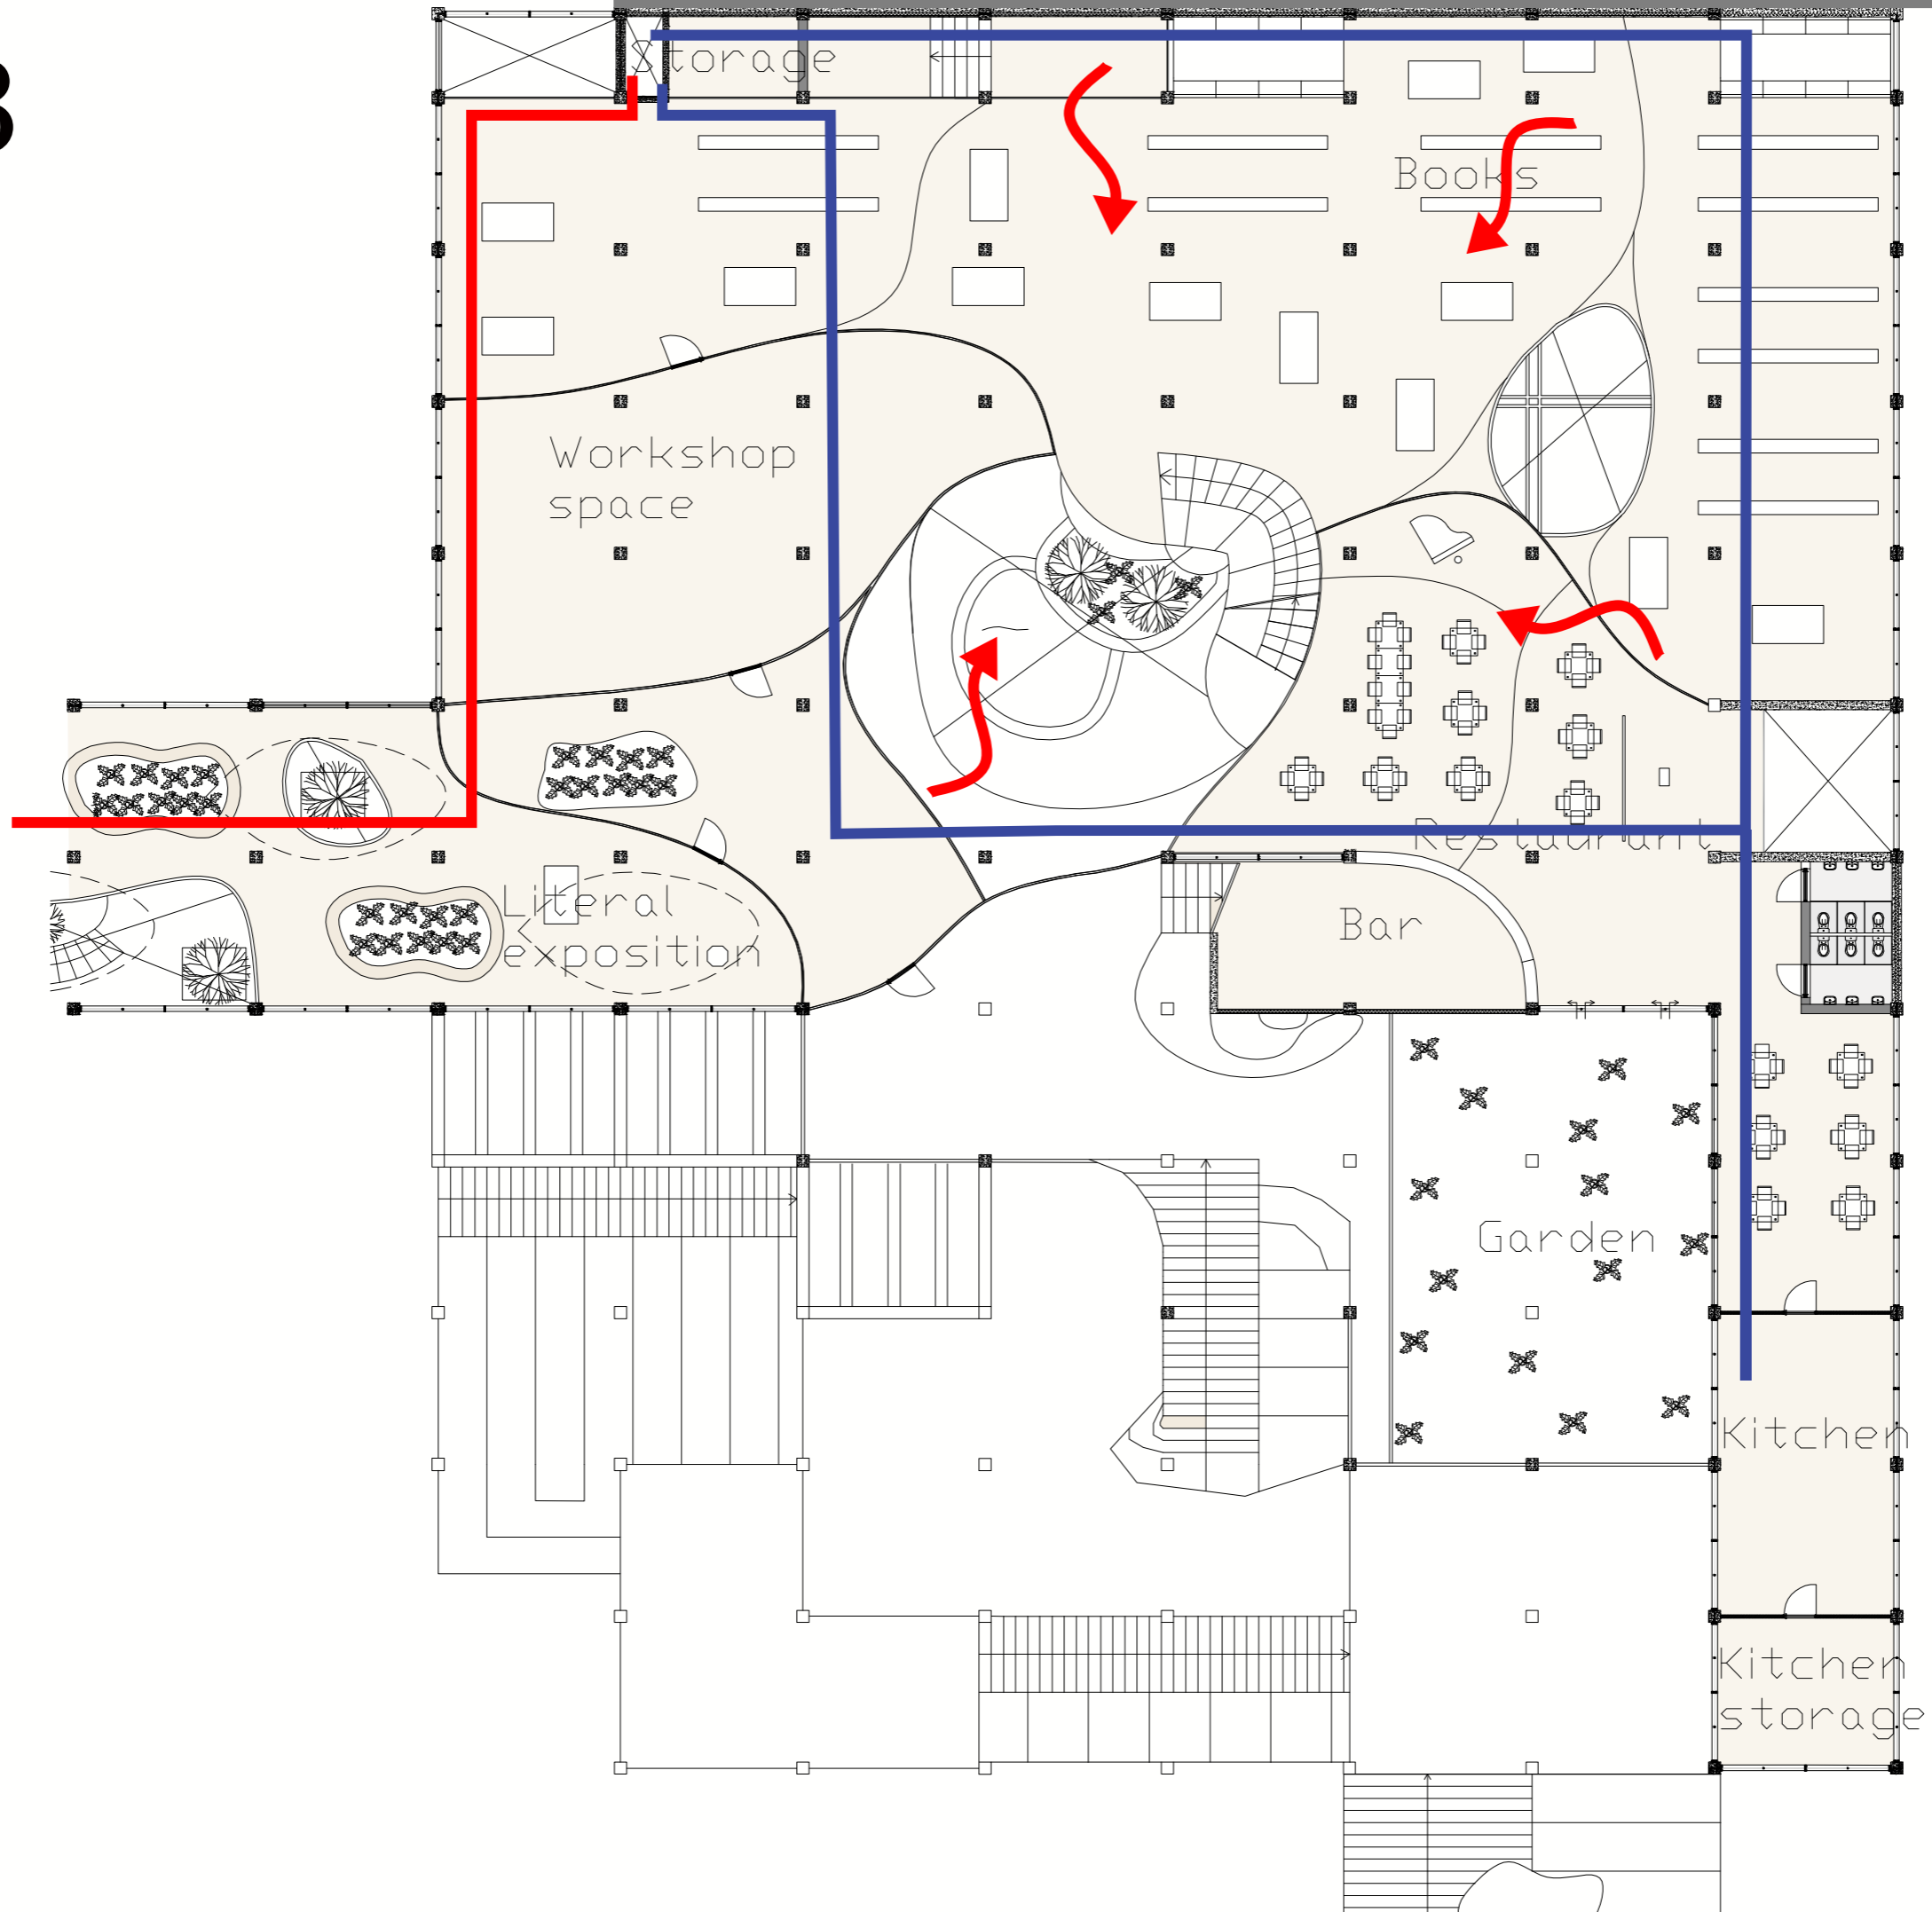

Ventilation shaft size:

For:
30 people per floor
Speed of 3m3
50 m3/h of air needed per person

Air needed per hour= 1500 m3
Shaft m2= $1500 / (3 \times 3600) = 0,14 \text{m}^2$
This gives a square shaft with a diameter of 0,37m

+03

Square size

The End

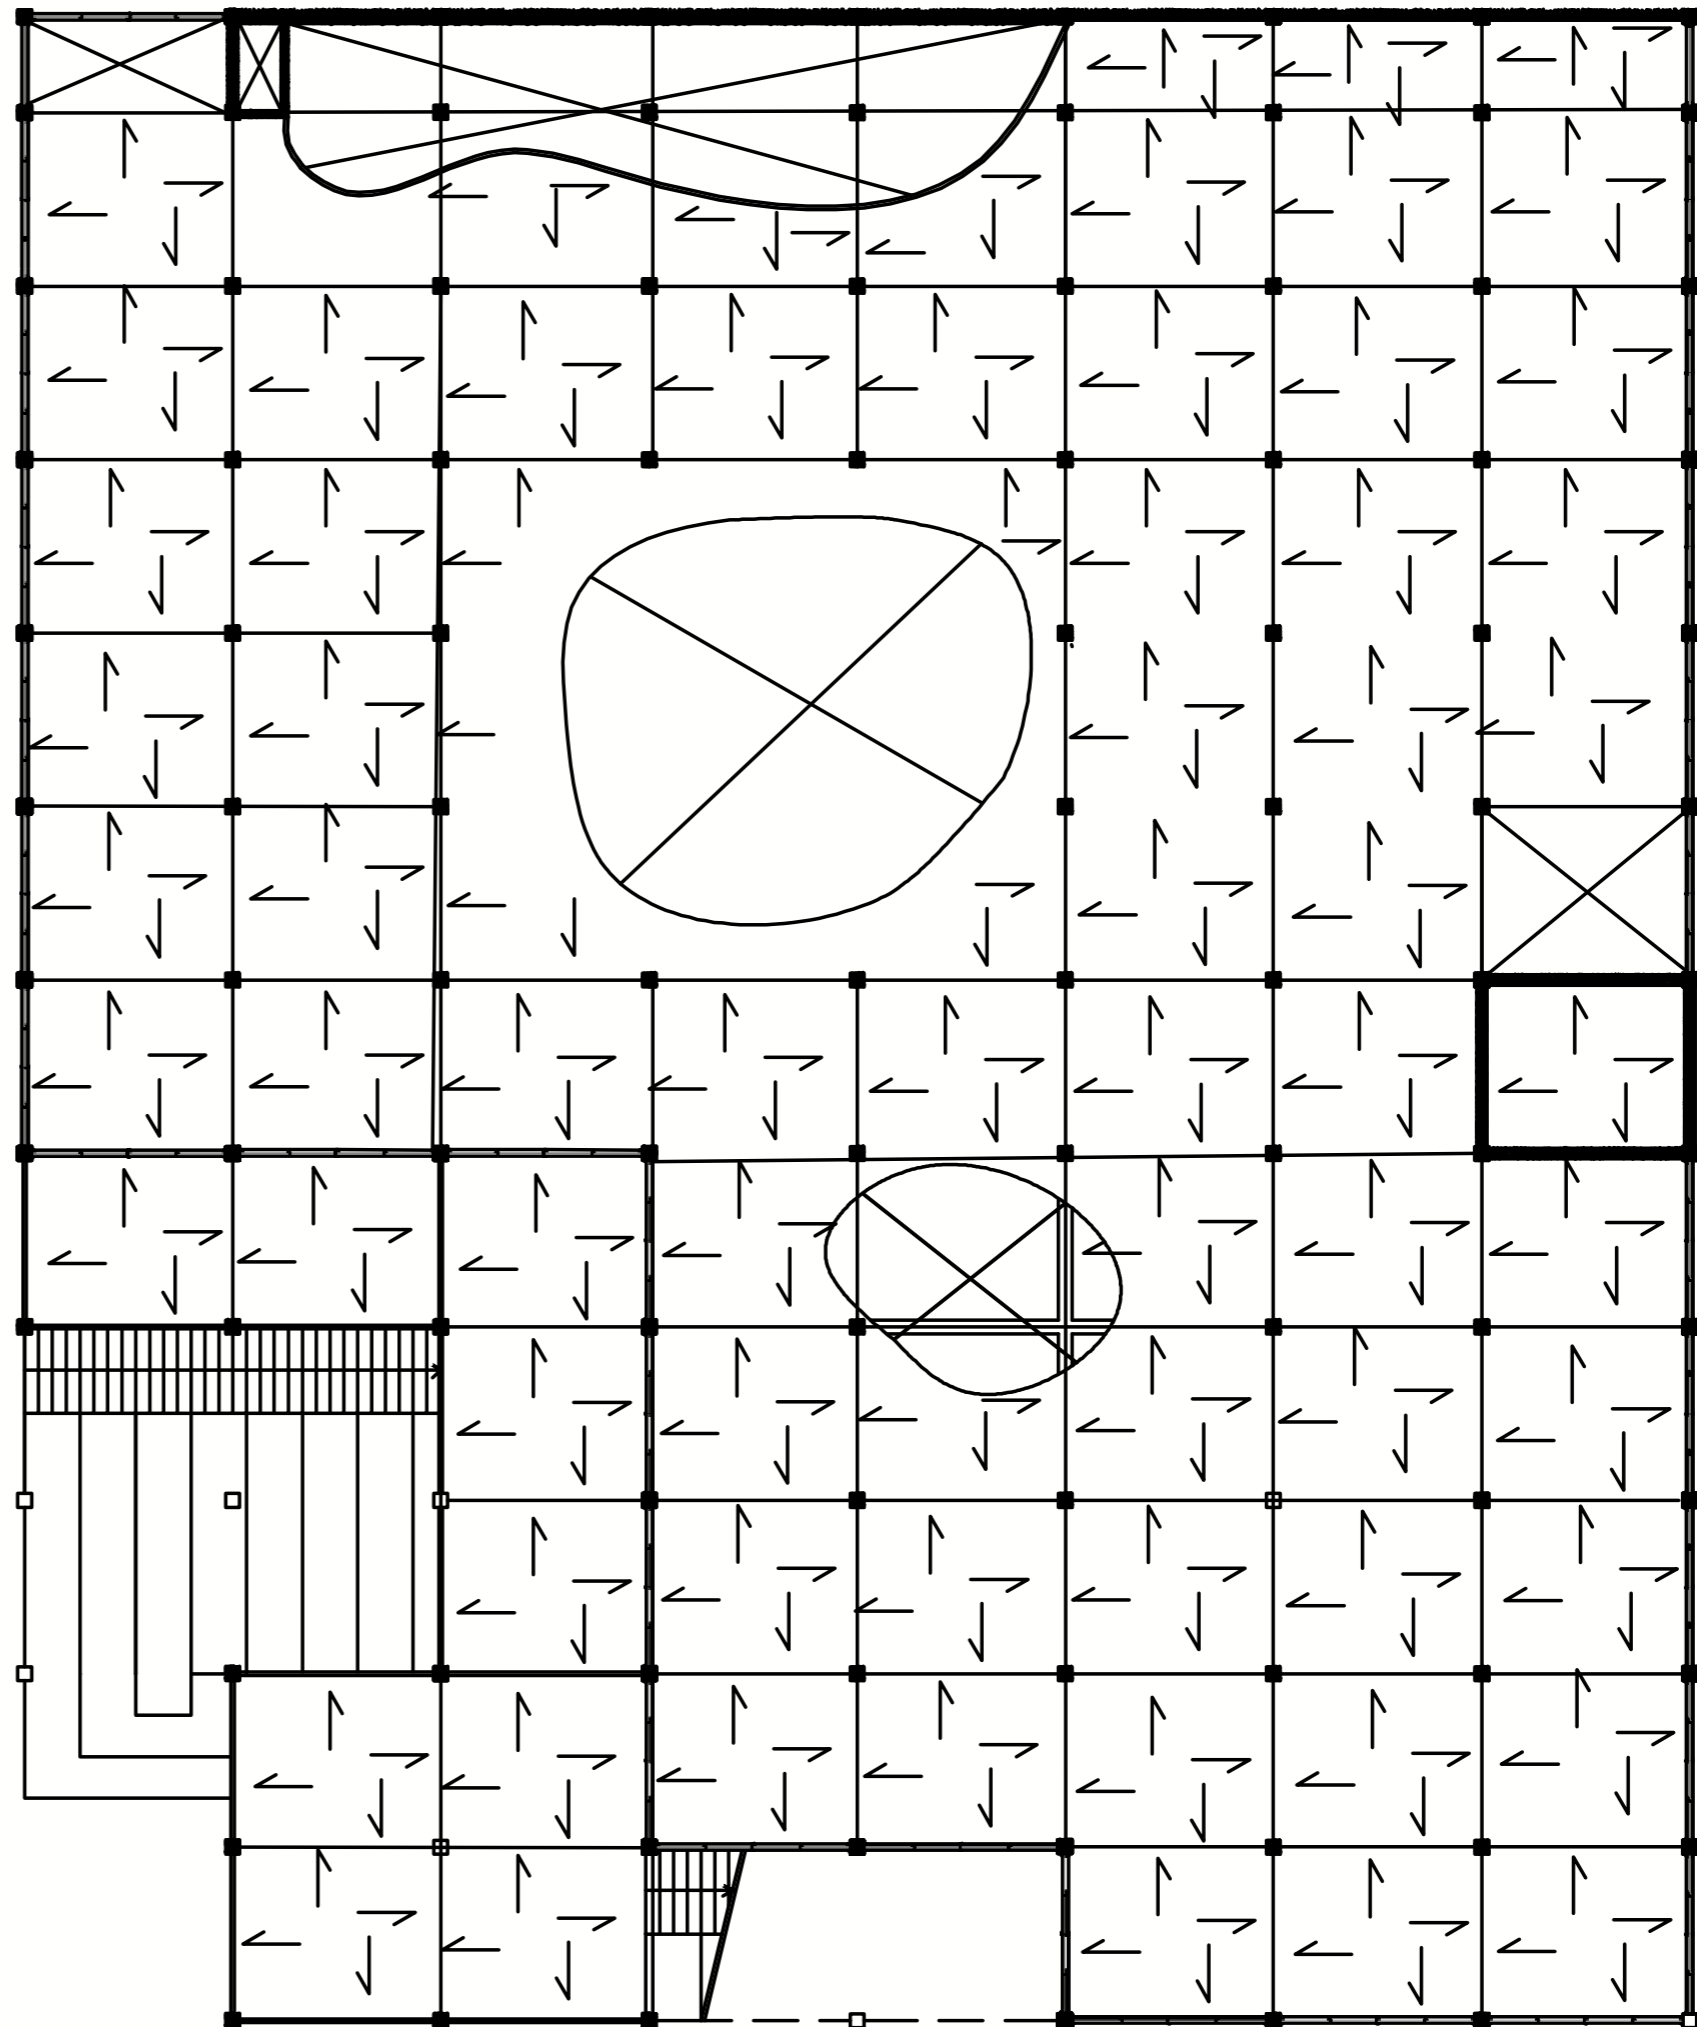

Floor 200 mm Beam 200 mm

Slab floor is $1/30$ of range (6000mm)= 200 mm

Beam is $1/15$ of range (6000mm)= 400 mm
By connecting beam and floor, the floor will function as a beam and can be used for height of the beam. An individual beam can therefore be 200 mm high

Forces in floors

Stability by slab + core
