## CONTENTS

### **Regulation and Yachts - Strange Bedfellows**

*D W Ralph, Maritime and Coastguard Agency, UK*

### **Maritime Labour Convention – Outline and Thoughts**

*AGN Levy, Ince & Co LLP, UK*

### **Yacht Greenhouse Gas Emissions: EU Policy Developments**

*M A Robinson, MYBA – The Worldwide Yachting Association, France*

### **A New Approach to Sailing Rigs Certification**

*F Faloci and F Spadoni, RINA SERVICES SpA, Italy*

### **Platform Engineering for Production and Semi-Custom Yachts**

*L J Archer and J Roy, BMT Nigel Gee Ltd, UK*

### **A Human Factors' Approach to Mega Yacht Concept Design**

*T Bosma and O Turan, University of Strathclyde, UK*

### **Design-Driven Innovation: A New Luxury Maritime Leisure Sector Between Cruising and Super Yacht Charter**

*S McCartan and J Edens, Coventry University, UK*

### **Factors Affecting the Performance of Motor Sailing Super Yachts**

*S. M. Wallis, Southampton Solent University, UK*

### **Design-Driven Innovation of a High Speed Art Deco Super Yacht Coastal Cruiser for the Chinese Market**

*S McCartan and R Verheijden, EBDIG, Department of Industrial Design, CSAD, Coventry University, UK*

*J Roy, BMT Nigel Gee Ltd, UK*

*C Nuvolari-Duodo, Nuvolari-Lenard srl, Italy*

### **Development of an Eco-Catamaran for the Charter Market through the Implementation of 'Passive Design' Technology**

*S McCartan and C Kvilums, EBDIG, Department of Industrial Design, CSAD, Coventry University, UK*

### **Application of Fuel Cell System as Auxiliary Power Unit Onboard Mega Yacht Vessels: A Feasibility Study**

*T Lamberti, L Magistri and P Gualeni, UNIGE, Italy; A Da Chá and A Calcagno, Fincantieri, Italy*

### **Improving the Efficiency of the Mega-Yacht World through Fleet Management Software**

*L. Maistralis, PhD, ABS Nautical Systems, Greece*

**Fast Numerical Methods in Early Stage Design of Mega Yachts**

*L. Pundt, Lürssen Shipyard, Germany*

**Designing of Planing Hulls With Longitudinal Steps: CFD In Support of Traditional Semi-Empirical Methods**

*S Brizzolara, Massachusetts Institute of Technology, USA*

*A Federici, University of Genova, Italy.*

**Experimental Assessment of Mega-Yacht Aerodynamic Performances and Characteristics**

*F. Fossati, F. Robustelli and M. Belloli, Politecnico di Milano – Department of Mechanics, ITALY*

*C. Bertorello, University of Naples Federico II, Italy*

*S. Dellepiane Azimut - Benetti, Italy*

**Numerical and Experimental Analysis of the Dynamic Behaviour of Large Yacht Superstructures**

*D Boote and T Pais, University of Genova, Italy*

*E Camporese, Cantieri Navali Azimut|Benetti, Italy*

**Experimental Investigation on Hydrodynamic Performances of Warped Hard Chine Displacement Hullform**

*E Begovic, C Bertorello, A Bove and S Pennino University of Naples Federico II, Italy*

**Seakeeping Analysis and Related Seasickness: Computational Fluid Dynamics Approach**

*G Redondo, Marine Engineer & Physicist, Santiago de Compostela, Spain.*

*S Bartesaghi, Ph.D Mechanical Engineer & Yacht Designer, Milano, Italy.*

**CFD Modelling of Green Water Flow on Motor Yacht Deck in Rough Sea Conditions**

*S Bartesaghi, Ph.D. Mechanical Engineer & Yacht Designer, Milano, Italy*

*G Redondo, Phycisist & Marine Engineer, Santiago de Compostela, Spain*

**Advanced Simulations for an Advanced Sailing Trimaran**

*Axel Köhlmoos, Volker Bertram, FutureShip, Germany*

**Catamarans as Super Yachts**

*A.Nazarov, P.Jabtanom, P.Phormtan, A.Leeprasert, P.Suebyiw*

*Albatross Marine Design, Thailand*

**Authors Contact Details**
