

The Shared Home.

collaborative housing
=
sharing
space, time & resources

*Around 12% of the people living in The Hague would be interested in collective housing
(centrum groepswoonen, 2021).*

*Currently, less than 0,2% of the current Dutch housing stock is collaborative housing
(CO-LAB RESEARCH, n.d; CBS,2023).*

De Grote Pyr,
Den Haag

Hestia,
Lelystad

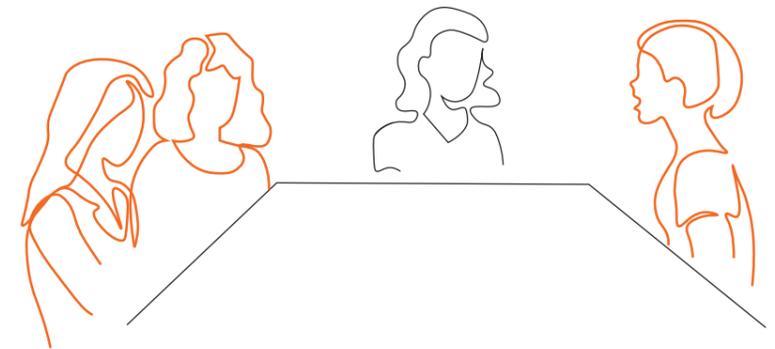

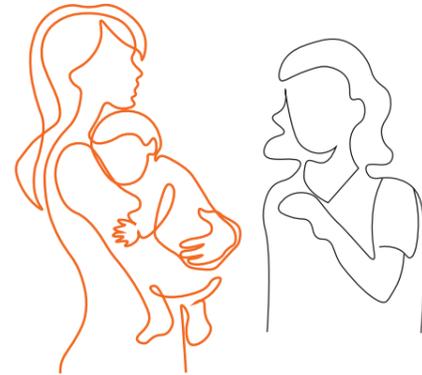

The four concepts of home

Safety

Privacy

Mental Ownership

Social connection

The shared sense of home

Visibility

Central access

Distance from the public

Safety, created by looking out for each other

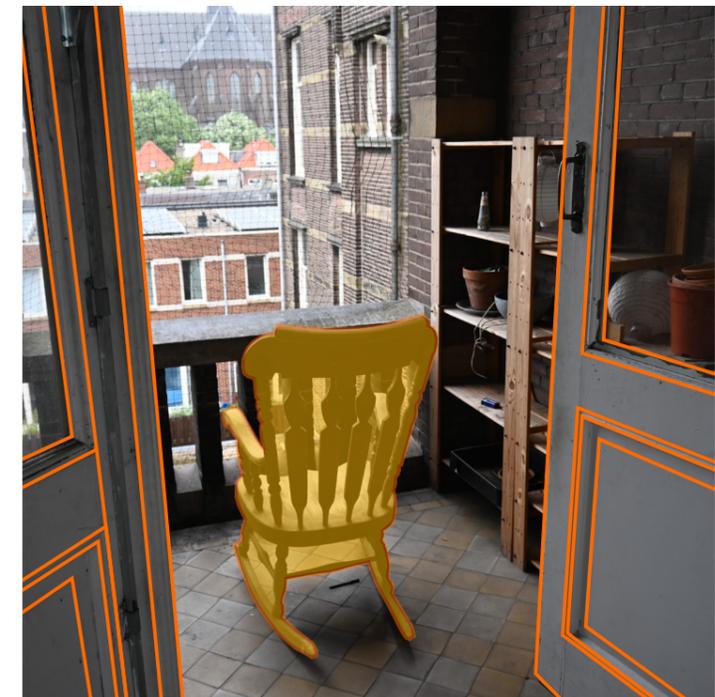

The shared sense of home

Boundary elements

Zoning between public and collective

Zoning within collective space

*Privacy, created by the collective as a threshold
inbetween the individual space and the public*

The shared sense of home

Unity & Personalization

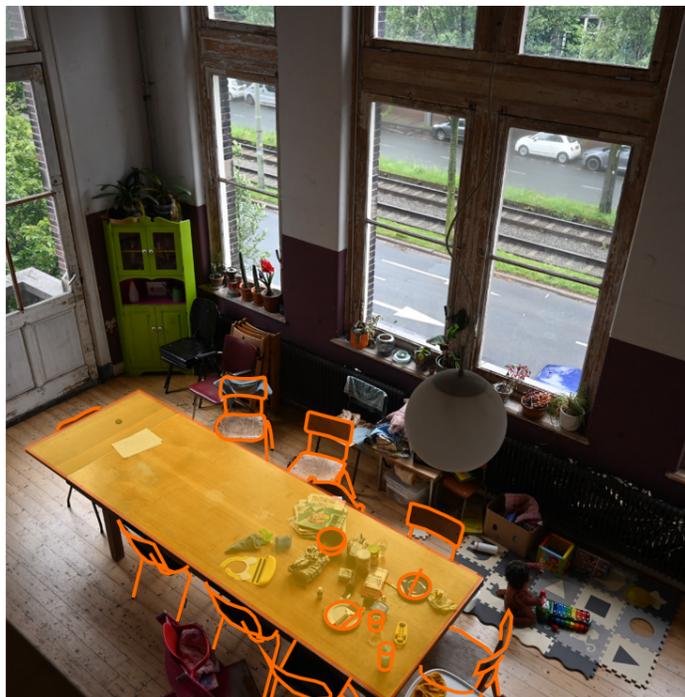

Usability

Semi-private zones

Mental ownership, where the resident feels responsible for the project as part of their home

The shared sense of home

Collective facilities

Shared routing

Collective facilities
Connected to the routing

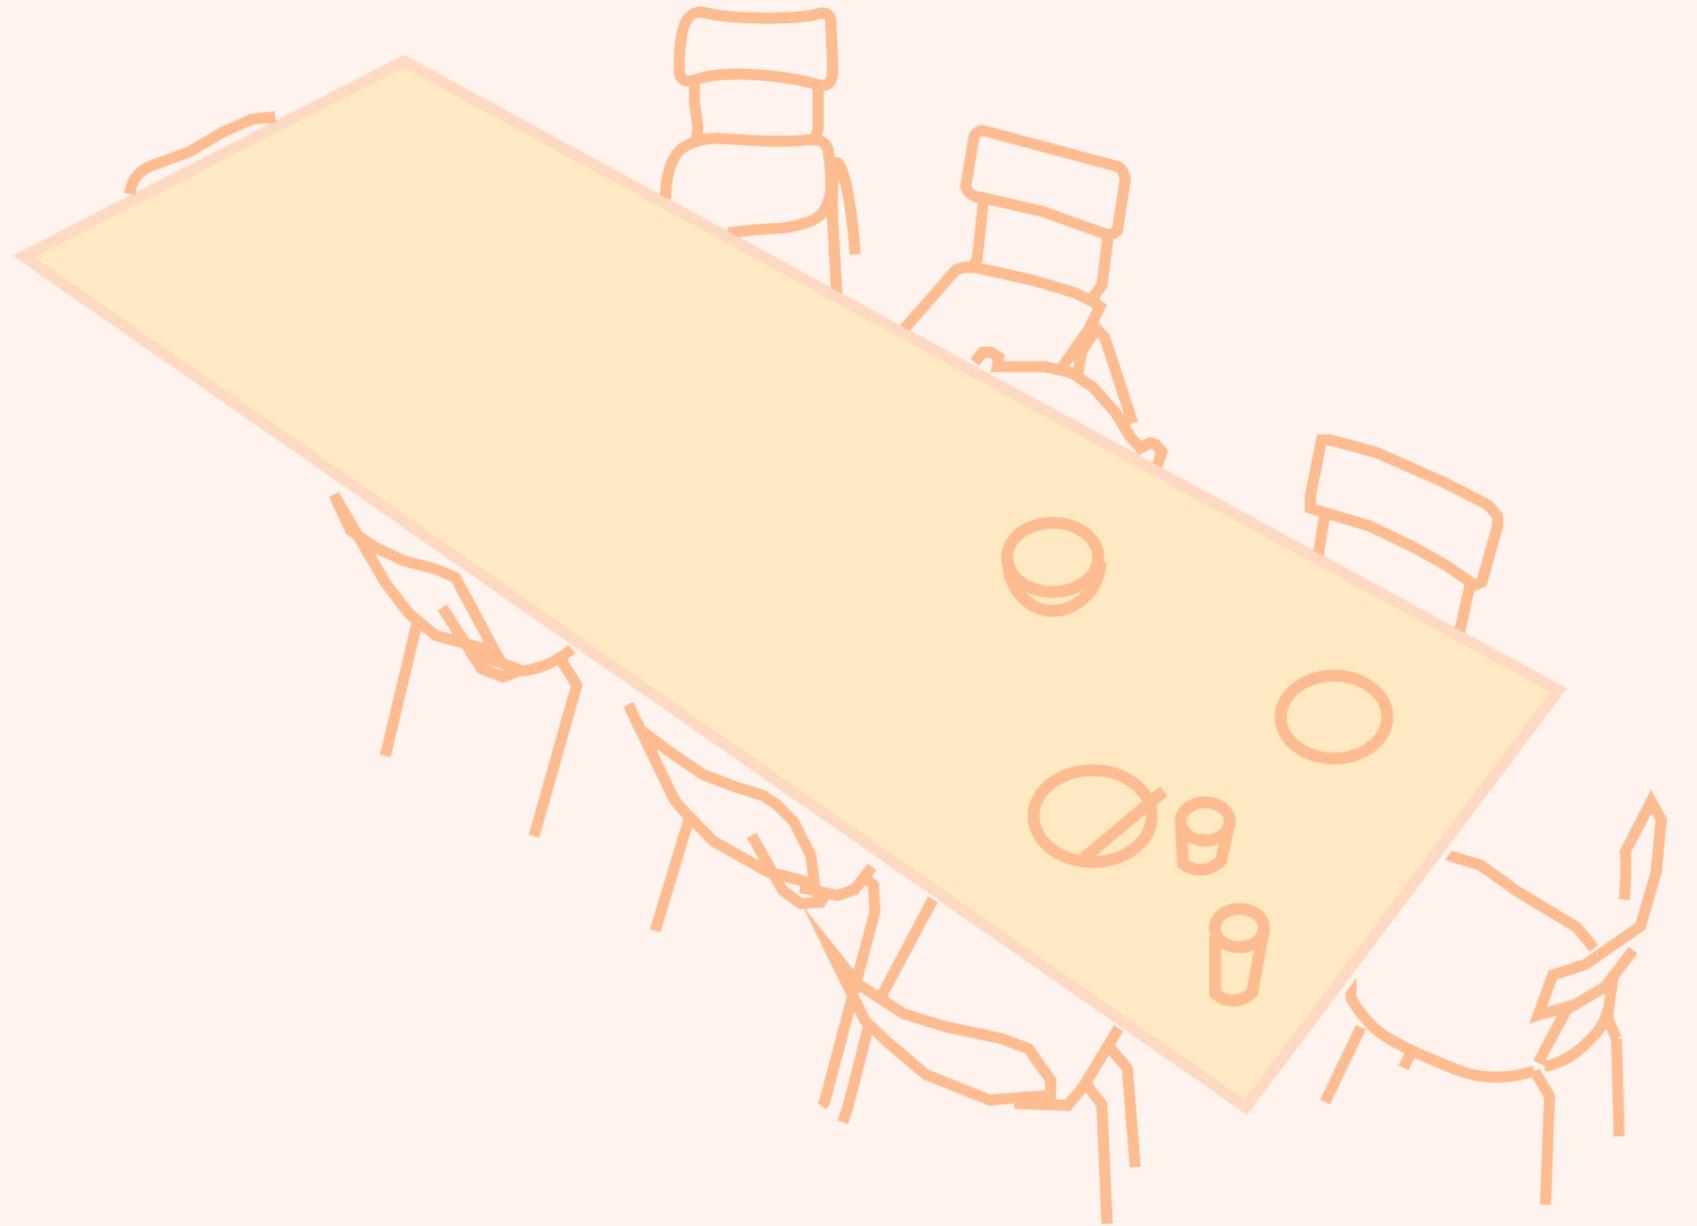

*Social connection, because of the emotional connection
they feel with the people they live with*
