Corrigendum

Corrigendum to “Loop-shaping for reset control systems: A higher-order sinusoidal-input describing functions approach” [Control Engineering Practice 111 (2021) 104808]

Niranjan Saikumar^a, Kars Heinen^b, S. Hassan HosseinNia^{a,*}^a Department of Precision and Micro System Engineering, Delft University of Technology, The Netherlands^b Delft Center for Systems and Control, Delft University of Technology, The Netherlands

The authors regret for the typographical error in Eq. (13) and provide the corrected version below:

$$H_n(\omega) = \begin{cases} C_R(j\omega I - A_R)^{-1}(I + j\Theta_D(\omega))B_R + D_R & n = 1 \\ C_R(jn\omega I - A_R)^{-1}(j\Theta_D(\omega))B_R & \text{for odd } n \geq 2 \\ 0 & \text{for even } n \geq 2 \end{cases}$$

The authors would like to apologize for any inconvenience caused.
