After the Party: Maastricht as The Festive City

“The studio will examine the potential of the festival as a means to transform and enrich public spaces and buildings.

Which ideas and specific qualities are embodied in these ancient urban rituals that are still relevant today? How is the ephemeral, the festive, represented in daily life? With the knowledge obtained, can we design buildings and structures that will enrich the city in a more permanent way?”

Festivals and communities
How festive events impact social life and interaction in a city

“Both the social function and the symbolic meaning of festival are closely related to a series of overt values that the community recognizes as essential to its ideology and worldview, to its social identity, its historical continuity, and to its physical survival, which is ultimately what festivals celebrates.”

Festive Starting Point

- Intimacy of an interior space
- Dynamic experience
- Inclusiveness and social interaction
- Interaction in the community is central and can be facilitated
