2. DELINEATION OF A BLOCK

1. DEFINITION OF A UNIT

Horizontally-view-through-the-block

The final infrastructure forming the base structure of the dwelling unit

Water and electricity transported into the dwelling units in each floor section through the water tank

Ground floor plan scale: 1:50

LEVEL 3: The conclusive infrastructure

LEVEL 2: The linking infrastructure

LEVEL 1: The main infrastructure line

Water pipe
Electricity line
Other facilities
Water tank
Electricity line
Other facilities

The final infrastructure forms the base structure of the dwelling unit

Water and electricity transported into the dwelling units on each floor

Section through the water tank

Section through the conclusive infrastructure
4. IMPLEMENTATION IN THE URBAN LEVEL

3. ADAPTATION TO THE LARGE SCALE
