Figure Plan  1:1000

This figure plan shows the relationship between the new building and the existing city context. From this plan we could clearly see how the new building cluster reform the existing void in the city center.

Roof construction
- Concrete flags: 50 mm
- Gravel: 40 mm
- Synthetic roofing felt: 100 mm
- Thermal insulation: 20 – 80 mm
- Screed laid to falls: 200 mm
- Concrete slab: 410 – 470 mm

Total:

Wall construction
- Concrete slabs: 28 mm
- Ventilated cavity: 100 – 132 mm
- Thermal insulation: 200 mm
- Concrete lamellally: 200 mm
- Interior wall finishing: 20 mm

Total: 580 mm

Floor construction
- Floor finishing: 10 mm
- Screed with underfloor heating (floating): 60 mm
- Separating layer (1 mm plastic sheet): 20 mm
- Impact sound insulation: 200/300 mm
- Hollowed concrete slab: 390/490 mm
