The closed character of the area has to be maintained or the Binnengasthuis area should even be ‘taken away’ from the city again. Filling the hole which occurred by demolishing the Hotel des Pays Bas and removing the out of tune social dwelling block would be historical desirable.

Advice Bureau of Monuments and Archeology in 1999

Former Binnengasthuis complex is common good, because of its cultural and medical-historical value as an expression of the development of increase of scale and modernization of the original old hospitals at the end of the nineteenth century.
