**NEW URBAN SCHEME**

The new urban scheme is composed of a Cultural statement within the urban fabric of Brussels. A cultural square based on the principles of the ancient Agora modelled on the South-Western District of the city. While this infrastructure is taken care of under the surface, the area is redeveloped to function as a cultural attractor and a new gate to the city. Together with the innercity district, the western European cities quarter, a new triangular city model is created to balance the city once more.

**BRUSSELS AGORA FUNCTIONS**

- **TRANSFORMATION**

  - Connect the city districts
  - Creating a new cultural platform in the city fabric
  - Functioning as a cultural laboratory to compose the European spirit

**BRUSSELS AGORA TRANSFORMATION**

- **CRISIS**

  - The new European spirit
  - A new cultural model
