The most sustainable phone is the one in your pocket

For every month you keep using your current phone, get a 1% discount on Fairphone products.

A group of consumers appreciates the Fairphone concept, but they are not in need of a new phone at the moment. Through the Friends of Fairphone program Fairphone encourages these consumers to keep their current phone in use for as long as possible. After all, the most sustainable phone is the one in your pocket. For every month they keep using their phone, Fairphone will reward them with a 1% discount on Fairphone products.

Today, these consumers forget that buying a Fairphone is an option while looking for a new smartphone. Through monthly updates, the Friends of Fairphone program will make sure that they will consider a Fairphone while they are looking for a new smartphone. A working web application prototype has been developed which is validated with the Fairphone user group. 86.1% of this user group (n=417) would have signed up to become a Friend of Fairphone. An implementation plan is presented which contains the required next steps for launching the Friends of Fairphone program.

The Friends of Fairphone program requires low investment costs, totally aligns with Fairphone’s mission and has much potential of attracting a new group of consumers!

The most sustainable phone is the one in your pocket.

Friends of Fairphone - Welcome Leon

Would you have signed up to become a Friend of Fairphone? Yes 86.1% n=417
Can you think of someone who definitely wants to become a Friend of Fairphone? Yes 53.7% n=417
